### Highlights in Products and Services

Takamitsu Moriyama Executive Vice President in charge of Banking Businesses Akinori Yamashita President and CEO Masao Mizuno Executive Vice President in charge of Credit Businesses, Fee Businesses and Overseas Businesses

We strive to provide reliable, convenient and beneficial financial products and services that have real relevance in people's daily lives. AEON Financial Service Co., Ltd. (the "Company") provides a variety of financial services in Japan and other Asian countries, based on our management philosophy to support customers' futures and their lifestyles through the effective use of credit.

As a comprehensive financial group that grew from the retail sector, we have worked consistently to provide customers with financial products and services that will be useful in their everyday lives. Such products and services include the issuance of AEON CARD SELECT, which combines the functions and benefits of a cash card, credit card, and e-money "WAON," as well as the AEON Select Club, which offers customers who have a housing loan with AEON Bank a 5% discount every day on purchases at AEON stores. As a result of these initiatives, we have been able to steadily expand our business operations, including adding more credit card members and growing the balance of bank deposits.

Meanwhile, competition among players in the financial services industry, which we belong to, has been growing ever more intense. In Japan, companies from other sectors have been entering the financial services field, while overseas, both Japanese and foreign-affiliated companies are entering the market in conjunction with the Asian shift in the economy. In light of these developments, in April 2013, we carried out a management integration of AEON Credit Service Co., Ltd. and AEON Bank, Ltd., thereby transitioning to a bank holding company.

In order to achieve additional growth, we are currently focusing on realizing four synergies: improving convenience in the financing businesses, strengthening marketing ability, expanding overseas businesses, and improving productivity and strengthening business promotion ability, and thus we are accelerating efforts to expand the credit businesses, the banking businesses, fee businesses, and overseas businesses.

Moreover, in addition to coping with bolstering compliance and corporate governance as a bank holding company, we are proactively promoting CSR activities, primarily environmental protection and social contribution activities. By doing so, we are working to contribute to the development of local communities as a good corporate citizen.

Going forward, we will continue to strive to be a company valued by society, with each and every employee of the Company acting with a high-level of ambition and sincerity.

AEON Financial Service Co., Ltd. will continue to strive to earn the trust of our customers and satisfy their expectations. We look forward to your ongoing support.

**Business Segments** 

### Credit Card Business

### [Card Lineup]

We seek to provide convenience and benefits in our customers' day-to-day shopping through our financial products and services such as credit cards, bank accounts and e-money.

### AEON CARD SELECT

AEON CARD SELECT is a multi-function card combining the functions and benefits of a credit card, a cash card and e-money "WAON" in one card. It is also possible to add a card loan function.

### [Increasing Number of Card Members]

At the credit card business, we are working to increase the number of card members by strengthening member subscriptions at AEON shopping centers, through alliance partners and through the Internet. The number of active card members in Japan continues to increase: as of March 31, 2014, the number was 23,450 thousand members, an increase of 1,210 thousand members from March 31, 2013.

### Installment Sales Finance Business

At the product-specific installment business, which is a new business field for us, we are working to nurture the business to be a key revenue source with our credit card, banking, insurance and e-money businesses. We are striving to expand our business lines with a focus on loans for the future growth field of solar power generation systems, home renovations, agricultural equipment and others.

Moreover, we are working to develop partner outlets across Japan, while at AEON stores, we are offering privileges and services that are linked with our retail operations.

### E-money Business

E-money "WAON" is a form of e-money operated by AEON Co., Ltd. It can be used not only at all AEON Group outlets nationwide but also at convenience stores, fast food outlets and in taxis. In addition, the points users accrue for every ¥200 they use can be converted into WAON (point charge) and used the next time the user goes shopping.

### Bank Agency Business

At the bank agency business, AEON CREDIT SERVICE Co., Ltd. has obtained a license for banking agency business and is engaged in bank agency operations for AEON Bank branches and other work including handling bank account openings and brokering housing loans.

This business is also engaged in developing a joint ATM business that installs and operates AEON Bank ATMs, and handles bank operations including an account opening center and reception operations for customer inquiries.

### Insurance Agency Business / Short-term Small-amount Insurance Business

At the insurance agency business, we operate walk-in "AEON Insurance Shops" centered on all AEON Group outlets, at which we provide insurance product proposals from a fair and neutral standpoint.

At the short-term small-amount insurance business, in addition to "Accident Insurance G.G Plan" for the senior market, we are striving to provide unique insurance products by such means as newly offering "Pet Insurance."

### Internet Business

This business operates the "Kurashi-no-Money Site," a portal website for comprehensive financial services offering one-stop online checking of credit card, bank, insurance and e-money services. On the same website, we also strive to meet a wide variety of financial needs by offering guidance not only on services for individual customers but also on those for affiliated merchants.

### In-store Branches

Our "in-store branches" are available for customers to visit while they are shopping at AEON

shopping centers for a variety of financial consultations and procedures. These branches operate from 9:00 am to 9:00 pm in principle, and are open daily including weekends, public holidays and the year-end/New Year holidays. Customers can freely drop in for consultations on their way home from work or on holidays. The "in-store branches" are staffed by consultants and provide consultations that cater for a variety of financial needs of customers including bank account opening, housing loans, investment trusts and insurance products.

### Various Loan Types

AEON Bank, Ltd. handles a variety of loans to meet the diverse needs of customers, including housing loans, card loans, education loans, loans for solar power generation systems and loans for home renovations. Furthermore, customers who join the AEON Select Club for those with housing loans receive not only a 5% discount every day on purchases at AEON stores but also many other special privileges that are unavailable with other housing loans, including preferential interest rates on AEON Bank time deposits.

### Asset Management

In order to meet a wide range of customer asset management needs, we handle a total of 49<sup>(\*)</sup> insurance products including individual pension insurance, whole life insurance and educational endowment insurance.

Furthermore, we handle 211<sup>(\*)</sup> investment trust products, placing us in the top rank of banks in Japan in terms of the number of products handled. These include products based on Japanese Individual Savings Accounts (Japanese ISAs; commonly known as NISAs), a tax-free system for small investments started in January 2014.

(\*)As of June 30, 2014

Since starting our first overseas business in Hong Kong in 1987, we have placed a strategic emphasis on business expansion in Asia, which is showing dramatic economic growth. We have established business operations in 12 countries and areas in Asia including Taiwan, China, Indonesia, the Philippines, Vietnam, Cambodia and India as well as our operations in Hong Kong, Thailand and Malaysia. Using the expertise we have built up in Japan, we will work to enhance convenience for customers in countries around Asia in providing them with financial services.

### Development Centered on Hong Kong (Hong Kong, Taiwan, China)

In Hong Kong, where we started our overseas business, we established a local subsidiary in 1990 and listed it on the Hong Kong Stock Exchange in 1995. We are working to increase the number of credit card members by strengthening member subscription with alliance partners and carrying out sales promotion planning. We have been expanding our business lines and started carrying out installment payment business in Shenyang, Tianjin and Shenzhen in China. We also operate processing business in Guangzhou.

### Development Centered on Thailand (Thailand, Vietnam, Cambodia, Myanmar, Laos)

We established a local subsidiary in Thailand in 1992 as our second overseas office after Hong Kong and listed it on the Stock Exchange of Thailand in 2001, steadily expanding our business lines. We are currently using the expertise we have built up in our credit businesses to proactively develop insurance agency, leasing, and servicer businesses, while working to increase the number of credit card members through alliance partners, including the AEON outlets we operate in Thailand. Furthermore, we started carrying out installment payment business in Myanmar, following on from Vietnam and Cambodia.

### Development Centered on Malaysia (Malaysia, Indonesia, India, Philippines)

We established a local subsidiary in Malaysia in 1996 as our third overseas office in Asia, which is showing dramatic growth, and listed it on the stock exchange of Malaysia, Bursa Malaysia in 2007. While continuing to strengthen member subscription through AEON Big Malaysia and others, we are also expanding our business lines through joint planning implemented with alliance partners. In Indonesia, India and the Philippines, where we operate installment payment business, we are working to expand our network of affiliated merchants.

# **CSR Action Policies**

### **AEON Financial Service Policies on Compliance**

### 1. Earning Trust

We are well aware that we have an important social responsibility and public mission as a comprehensive financial group, and we strive to earn unwavering trust from society by acting in good faith and ensuring sound business operations.

### 2. Respecting Human Rights

Our officers and employees all treat each other as partners in the workplace, showing mutual respect for individuals' characters and individuality.

### 3. Complying Fully with Laws and Regulations, etc.

We aim to comply fully with all laws, regulations, and rules, and conduct fair and honest corporate activities in keeping with social norms. In addition, we aim to maintain a strong sense of ethics, and to sustain and enhance a corporate culture of obeying laws, regulations and rules.

### 4. Managing Information

We handle customer information and other critical information with the utmost care, and manage it rigorously to avoid improper use.

### 5. Ensuring a Customer-Oriented Approach

We always put customers first and offer reliable, high-quality financial services suited to each customer's needs. Furthermore, we ensure that our actions never harm our customers' interests in order to benefit the AEON Financial Service Group, and we refrain from using our dominant position to persuade customers to enter into transactions.

### 6. Confronting Anti-Social Forces

We are committed to maintaining a resolute stance against anti-social forces that pose a threat to civil society, and if we encounter any transaction that we suspect is connected to money laundering or any other crime, we do not disregard it, but deal with it appropriately.

### **Privacy Policy**

### **Privacy Policy**

- 1. AEON Financial Service Co., Ltd. (the "Company") has established and discloses the privacy policy (the "Privacy Policy") as its approach to protect personal information and properly handle such information.
- 2. The Company recognizes the importance of protecting personal information, and complies with the Act on the Protection of Personal Information and other relevant laws and regulations including guidelines, as well as the Company's internal regulations including this Privacy Policy, and it strives to properly protect and handle personal information.
- 3. The Company acquires personal information through appropriate and lawful means, and only to the extent necessary to achieve the purpose of utilization.
- 4. The Company specifies the purpose of utilization of personal information, and handles such information within the limitations of the purpose of utilization. In cases where the purpose of utilization of specific personal information is limited by laws and regulations, the Company does not use such information beyond such limitations of the purpose of utilization.

The Company's purpose of utilization of personal information is shown in "Handling Personal Information," etc.

### Handling Personal Information (Purpose of Utilization of Personal Information)

- 5. The Company does not provide personal information to any third party, with the exception of cases where the person concerned has granted prior consent in that regard, or where provision of personal information is based on laws and regulations.
- 6. The Company takes appropriate measures to ensure the security control of customers' personal information in order to prevent loss, alteration or leakage of such information.
  - When outsourcing the handling of customers' personal information, the Company appropriately oversees the trustee.
- 7. The Company reviews the content of this Privacy Policy as necessary, and strives to bring about continuous improvement such as to its systems and approaches for protecting personal information.
- 8. The Company trains and educates its officers and employees regarding the importance of protecting personal information to ensure that they handle customers' personal information in an appropriate manner.
- The Company responds in an appropriate and swift manner to requests by customers to disclose personal information it retains.

### **Enhancing Convenience for Customers**

### Making Use of Customer Feedback

We value opinions, requests, and other feedback received from our customers, and we take such feedback seriously as a means to improve our business and further upgrade our services. We provide customer feedback cards at bank branches and ATMs, replying individually to those customers we can contact. Each of our companies also collects and categorizes feedback received via branches, call centers, and the corporate website, and such feedback is shared, discussed, and studied by the AEON Financial Service Customer Satisfaction Committee, and used in efforts to further upgrade our services.

### Initiatives to Enhance Convenience

We are taking steps to enhance our services to make them more convenient and more focused on serving the public good so that a diverse range of customers can feel comfortable using them. In bank branches, for instance, we installed communication boards to enable customers with impaired hearing or concerns about communicating verbally to use a visual means of telling bank staff what transactions or procedures they want.

### For customers with physical disabilities

→ We reduce fees for over-the-counter money transfers

### For customers with impaired eyesight

➡ We issue account statements in braille

### For customers who find it difficult to write

We handle housing loan applications and other paperwork read or written by a proxy on behalf of the customer

### **Supporting Our Employees**

### Respect for Diversity in Hiring and Training

We respect the diversity of our personnel and endeavor to conduct hiring and training free of discrimination based on nationality, ethnic origin, gender, educational background, religion, or physical disability.

### Hiring

The three comprehensive financial service companies of the Group conduct joint hiring to offer more reliable, convenient financial services centered on Kurashi-no-Money Plazas and in-store branches within AEON shopping centers. In April 2014, we hired five non-Japanese students in order to secure personnel who can play an active role throughout Asia.

### Training

We offer group training, on-the-job training, and assistance with self-development to enable each individual employee to enhance his or her own skills. In so doing, we aim to nurture global human resources who will flourish outside Japan, as well as professionals who command a wide range of skills in credit, banking, and insurance, enabling them to recommend financial services that meet customer needs. We are also actively implementing personnel exchanges between our domestic and overseas companies to nurture global human resources who will support our business development in Asia. During fiscal 2013 we sent 24 employees overseas from Japan, and eight overseas employees came to Japan.

### Creating Accommodating Workplaces

We are introducing a personnel management system that will enable motivated employees to play an active role over the long term and combine work with childbirth, childrearing, and caring for elderly relatives.

### **Promoting Diversity**

We are creating a framework within which each employee's individuality can be respected and a diverse range of personnel can flourish in order to reinforce our ability to provide financial products and services developed from the customer's perspective. In order to actively promote full participation by women in particular, in 2014 we brought in a female outside director and established a new Hiring and Training Division to extend and enhance training focused on women's career advancement. We are also actively promoting the appointment of women to management positions and we intend to raise the percentage of female store managers from the current 25% to 50% or more soon.

### **Promoting Work-Life Balance**

To create better workplaces that are more accommodating toward our employees we conduct an annual morale survey targeting all employees, and incorporate the results of the survey into subsequent system revisions.

In 2013 AEON CREDIT SERVICE Co., Ltd. introduced systems enabling employees to take consecutive holidays and to systematically take paid leave, as well as a new system targeting a reduction in total hours worked. In separate measures to support employees returning to work after childcare leave, we offered reduced working hours and extended and enhanced the provision of child-related allowances for employees with children younger than junior high school age.

### **Communication with Shareholders and Investors**

### System for Disclosing Information

To enable our shareholders, investors, and other stakeholders to deepen their understanding of the Company, we disclose key information related to the Company in a timely and appropriate manner in accordance with laws and regulations relating to financial instruments and the rules of the stock exchanges on which the Company's stocks are listed. The information disclosure system we have put in place affords all our investors equal access to material information affecting investment decisions.

The shareholder and investor information home page

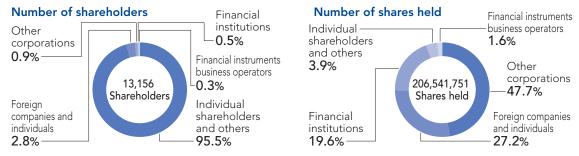

### IR Activities

**CSR** 

We regard IR activities as important, believing that a positive attitude toward releasing information helps to earn trust from society. Through our IR activities we communicate the facts about the Company to our shareholders and other investors impartially, accurately, promptly, and continuously. During fiscal 2013 we held results briefings for institutional investors, while the director and other personnel with responsibility for IR responded to individual inquiries.

We are also striving to make better use of the Internet to disclose information as a means of helping more individual shareholders to understand the Company. In addition to monthly operating data, the latest news and IR materials, we brought together relevant information including information on the Company's business activities, the types of cards offered and their privileges, industry information, and the Company's financial information in a section of the Company's website specially for individual investors.

### Shareholding Ratio by Category (as of March 31, 2014)

### Redistribution of Profits to Shareholders

We regard the redistribution of profits to shareholders as an important policy for managing the business. We therefore allocate profits among shareholders appropriately, and endeavor to enhance the Company's ability to compete by securing the internal reserves necessary to expand operations and increase productivity.

For fiscal 2013 we set an interim dividend of ¥25 per share and a year-end dividend of ¥35 per share for an annual dividend of ¥60 per share.

Annual Dividends per Share

	FY2010	FY2011	FY2012	FY2013
Annual dividend	¥40	¥45	¥50	¥60
Payout ratio	65.8%	78.5%	56.9%	57.4%

**Management Structure** 

## **AEON Financial Service's Corporate Governance**

### Corporate Governance Structure

At our predecessor company, AEON CREDIT SERVICE CO., Ltd., we conducted, as its basic policy, due debate and review of management issues within the decision-making bodies such as the Board of Directors. We did this to realize basic management policy and our medium-term vision, and to continuously improve corporate value. We also took actions to strengthen management supervision and internal control functions on an ongoing basis. The purpose of these actions was to secure objectivity of decision-making processes and compliance in terms of overall management.

As a bank holding company, AEON Financial Service Co., Ltd. aims to further strengthen the management control function and corporate governance structure. In order to realize this, we have established four committees. Each of these committees studies and makes decisions on certain items in each field within the scope delegated by the Board of Directors and then reports and provides opinions to the Board of Directors.

With a focus on maneuverability and prompt decision-making, the Board of Directors is made up of a small number of directors. The Board of Directors makes decisions on important matters related to the management of AEON Financial Service Co., Ltd. and its group (the "Group") after deliberation in each committee and the Management Policy Committee from the perspectives of business efficiency and effectiveness. The Board of Directors meeting is held regularly once per month, and as needed on an extraordinary basis.

AEON Financial Service Co., Ltd. is a company with a Board of Corporate Auditors. The Board of Corporate Auditors comprises four outside corporate auditors (including two independent directors/ auditors). Pursuant to the Board of Corporate Auditors Audit Criteria formulated by the Board of Corporate Auditors, the corporate auditors, in accordance with the audit policies and division of duties, attend Board of Directors meetings and other important meetings, and receive reports and explanations from directors and employees about the execution status of duties. Corporate auditors also read important decision-making documents and other materials, and audit the directors' execution of duties by investigating business operations and assets at the head office as well as at key business sites.

In addition, the Company has elected two outside directors and four outside corporate auditors. They were elected because we judged that they are capable of providing appropriate opinions with respect to the Company's management from an objective standpoint based on their wealth of knowledge and experience.

Corporate Governance Structure (As of June 30, 2014)

### Internal Control System

In order to develop a system to ensure that the Company properly conducts business operations, AEON Financial Service Co., Ltd. has formulated a Basic Policy for Developing an Internal Control System by resolution of the Board of Directors. In addition, the Company is working to enhance its internal control system, including its compliance system, risk management system, and internal audits, to build a firm management framework.

Also, with respect to the internal control report system in accordance with the Financial Instruments and Exchange Act, the Company works with its corporate auditors and accounting auditor to develop and evaluate the internal control system related to the Group's financial reporting, in order to ensure the credibility of its financial reporting.

### Compliance System

As the guidelines for all officers and employees to make appropriate decisions and take appropriate actions in accordance with both social norms and corporate ethics, it was prescribed that all officers and employees must comply with the AEON Code of Conduct. The Company has formulated the AEON Financial Service Group Policies on Compliance, which clarify the basic stance on compliance of the Group with the Company as a bank holding company. In addition, the Compliance Regulations and Compliance Manual have been formulated to thoroughly inform all officers and employees about the laws and regulations that they must comply with, as well as specific points to watch out for, and how to respond should they discover any compliance violations. Also, the Company carries out regular and as-needed compliance training for officers and employees in order to address up-to-date laws and regulations as well as any amendments to the Company's articles of incorporation.

The Company has set up a Compliance Committee to develop and establish the Group's compliance system. The Compliance Committee holds meetings once a month, in principle. In accordance with the stipulations in the Compliance Committee Regulations, the Compliance Committee studies and deliberates on compliance-related matters in a comprehensive and professional manner, and provides necessary instruction to related parties. The Committee also passes resolutions on matters delegated to it by the Board of Directors, and provides necessary reports and opinions to the Board of Directors.

Each Group company has a contact point for consultation to ensure the promotion of compliance and the integrity of the compliance system. In addition, all officers and employees are informed about the AEON Code of Conduct "110" hotline contact point and the outside hotline contact point for consultation. In addition to issues involving legal violations, the contact points for consultation receive consultations on every matter for which finding a resolution at the workplace level is difficult, including issues related to daily business operations. By investigating the facts and devising measures for improving or resolving issues, the contact points for consultation protect the consulting individuals and help the Group companies to take corrective action.

The Company has formulated the Basic Policy for Handling Anti-Social Forces. This policy clearly informs officers and employees that relationships with anti-social forces are to be blocked, and they are to be resolutely excluded. The Company has also created a division charged with handling anti-social forces on an organizational basis. This division collects, analyzes and manages data about anti-social forces collected from both inside and outside the Company in an integrated fashion.

**Management Structure** 

# AEON Financial Service Corporate Governance Structure

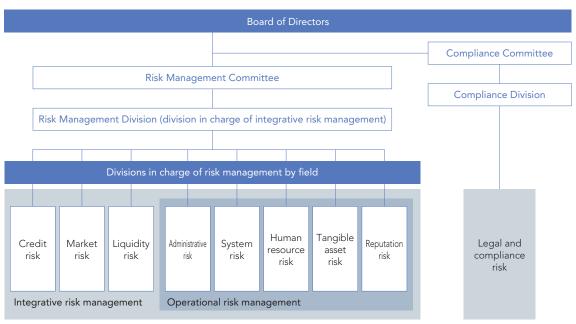

### Risk Management Structure

AEON Financial Service Co., Ltd. promotes an integrative risk management. The Company evaluates the various risks it faces by risk category, and appropriately manages the risks in light of the Company's corporate strength, thereby maintaining management soundness and contributing to achieving more certain and consistent operating results.

As a structure to promote this risk management, the Company has established a Risk Management Committee to make the necessary decisions about risk management within the scope delegated by the Board of Directors and a Risk Management Division oversee risk management of each Group company.

The Risk Management Committee comprehensively studies and deliberates on matters related to the Group's overall management of risk, and brings up matters and makes reports on necessary matters to the Board of Directors meeting. The Board of Directors regularly receives reports on the status of risk management for monitoring purposes, and deliberates and makes decisions on important basic matters related to risk management.

The Group categorizes risks that occur in the course of operations into a number of categories: credit risk, market risk, liquidity risk, and operational risk. Risks are managed according to their specific characteristics.

### Risk Management Structure

### Credit risk management

The Group's primary credit risk is related to credit provided to individuals, such as housing loans and credit cards, and therefore these risks are diversified into small lots. Credit risk associated with housing loans is reduced through stringent pre-screening and follow-up monitoring, as well as by securing loans with the associated properties.

### Market risk management

With respect to market risk management, AEON Bank, Ltd., a Group company, carries out market-related operations in line with the ALM Operations Policy based on the characteristics of the business and the market environment. Systems to appropriately control risk to prevent excessive risk are in place, including measuring various risks and establishing limits. The bank uses specific risk indicators including Value at Risk, interest rate sensitivity, and comprehensive gains and losses. These risk indicators are monitored and reported on a daily basis to make sure its market risk does not exceed allowed threshold. Furthermore, at AEON Bank, Ltd., independent offices are responsible for risk management in the market front, back, and middle office functions, thereby ensuring mutual checks and balances for business operations.

### Liquidity risk management

The system to manage liquidity risk involving systems according to the actual cash flow situation at each Group company is in place. Risk is managed with an emphasis on securing liquidity, while also taking the efficiency of funds operations into consideration.

### **Operational risk management**

The Group classifies operational risks into six categories: administrative risk, system risk, human resource risk, tangible asset risk, reputation risk, and legal and compliance risk. Divisions responsible for each risk management manage risks from its position of expertise, while the Risk Management Division identifies and manages operational risk on a comprehensive level. Given its importance, a separate system, including the Compliance Committee, is in place to manage legal and compliance risk.

### Internal Audits

Based on the recognition that building an internal audit system is critical for developing an appropriate risk management structure, the Company has formulated an Internal Audit Basic Policy for the Group, which aims to ensure the effectiveness of internal audits. The Internal Audit Division of the Company conducts internal audits of each division of the Company as well as supervises the Group's internal audit function. Specifically, the Division verifies the appropriateness and effectiveness of each Group company's internal management and internal audit structure by monitoring the status of internal audits, and conducting direct audits as necessary. The Division provides necessary opinions and guidance based on the results of these reviews. In addition, from the standpoint of ensuring the efficiency and effectiveness of audits, the Internal Audit Division exchanges opinions and information with the corporate auditors and accounting auditor regularly as well as on an as-needed basis.

- (\*1) The translation of Japanese yen amounts into U.S. dollar amounts is included solely for the convenience of readers outside Japan and has been made at the rate of ¥102.92 to U.S.\$1, the approximate rate of exchange on March 31, 2014. Such translation should not be construed as a representation that the Japanese yen amounts could be converted into U.S. dollars at that or any other rate.
- (\*2) On April 1, 2013, AEON Financial Service Co., Ltd. (the "Company") became a bank holding company. Accordingly, the Company has prepared the consolidated financial statements for the fiscal year ended March 31, 2014 in accordance with the Ordinance for the Enforcement of the Banking Act (Ordinance of the Ministry of Finance No. 10 of 1982) which prescribes classifications of assets and liabilities and revenues and expenses for banking institutions.
- (\*3) Previously, processing service fee income and expense were recorded at the gross amount. However, effective from the fiscal year ended February 20, 2011, the amount of processing service fee income reflects the net amount of the relevant service fees paid to the e-money issuers through the e-money settlement service of the Company. As a result, total operating revenues and total operating expenses for the year ended February 20, 2010 are retroactively restated.
- (\*4) Diluted net income per share for the year ended February 20, 2011 is not disclosed as no potential dilution exists.
- (\*5) The consolidated amounts for the fiscal year ended March 31, 2013 include the results of AEON Bank, Ltd. and its subsidiary as AEON Bank, Ltd. became a wholly-owned subsidiary of the Company through the share exchange as of January 1, 2013. In addition, the consolidated amounts for the fiscal year ended March 31, 2013 cover a period of 13 months and 11 days from February 21, 2012 through March 31, 2013, due to the change in the Company's fiscal year.

#### **Consolidated Financial Summary**

To further grow as a comprehensive financial group with retail business at its core, the Company has become a bank holding company in April 2013, aiming to achieve four strategic synergies as key measures: "improvement of convenience of financing services," "enhancement of marketing capacity," "expansion of overseas business," and "improvement of productivity and strengthening of sales capability." The Company has promoted fee business such as e-money business in addition to credit card and banking businesses and expanded its operation in Asia.

For the year ended March 31, 2014, the Company has reinforced cardholder solicitation at stores of alliance partners and through the Internet. Also, the Company expanded its marketing network through establishing "Kurashi no Money Plaza," a one-stop shop to provide various financial products and services, and enhancing installation of ATMs. The Company has worked on enhancing operational efficiency through streamlining the overlapping administrative and headquarters functions operating within the Company and its subsidiaries (collectively, the "Group").

In addition, the Company acquired AEON Product Finance Co., Ltd. (former Toshiba Finance Corporation), which is engaged in installment sales business, as a consolidated subsidiary in order to nurture it as a key component of earnings alongside credit cards, banking, insurance and e-money businesses, and increased the transaction volume of loans for home renovation and solar energy systems by leveraging on the Group's sales network and the sales capabilities of AEON Product Finance Co., Ltd.

In the overseas business, the Company has expanded its operation centered around its three listed companies in Hong Kong, Thailand, and Malaysia and launched hire purchase business in Shenzhen, China and Myanmar.

As a result of the above, the consolidated financial results of the Group for the year ended March 31, 2014 were as follows: (a) income before income taxes and minority interest increased by 30.5% to ¥39,797 million, and (b) net income increased by 52.3% to ¥20,743 million, compared to the previous fiscal year.

In response to inappropriate accounting treatment discovered at the Company's subsidiary in Taiwan, the Company has developed five measures to further strengthen governance and compliance systems as a bank holding company: "generating corporate culture with emphasis on compliance," "strengthening governance of subsidiaries," "review of accounting system," "review of human resources/organizational structure," and "reinforcement of system structure."

During the current fiscal year, in order to strengthen management oversight, the Company reinforced management structures in overseas subsidiaries in each area by newly establishing the Management Audit

Department and Business Management Department and deploying the Heads of the Business Management Department to its overseas subsidiaries in Hong Kong, Thailand, and Malaysia.

The Company has changed the presentation of the consolidated financial statements for the year ended March 31, 2014 to comply with the requirements of the Banking Act and the Ordinance of the Enforcement of the Banking Act upon becoming a bank holding company as at April 1, 2013. In addition, the Company has changed its fiscal year-end from February 21 to March 31 in 2013.

The comparison of the consolidated financial results with the previous fiscal year in the preceding paragraph represents a comparison between the results for the year from April 1, 2013 to March 31, 2014 and those for the fiscal year from February 21, 2012 to March 31, 2013.

#### Notes to Consolidated Financial Statements

Year Ended March 31, 2014

### 1. BASIS OF PRESENTING CONSOLIDATED FINANCIAL STATEMENTS

The accompanying consolidated financial statements have been prepared in accordance with the provisions set forth in the Japanese Financial Instruments and Exchange Act and its related accounting regulations, and in accordance with accounting principles generally accepted in Japan ("Japanese GAAP"), which are different in certain respects as to the application and disclosure requirements of International Financial Reporting Standards ("IFRS") and accounting principles generally accepted in the United States of America ("U.S. GAAP").

The Group has prepared the consolidated financial statements for the fiscal year ended March 31, 2014 in accordance with the Ordinance for the Enforcement of the Banking Act (Ordinance of the Ministry of Finance No. 10 of 1982) (hereafter the "Act"), which prescribes classifications of assets and liabilities and revenues and expenses for banking institutions. However, the consolidated financial statements for the fiscal year ended March 31, 2013 are not reclassified. This is because it is impracticable to collect prior year information of the Group required to conform to the Act.

In preparing these consolidated financial statements, certain reclassifications and rearrangements have been made to the consolidated financial statements issued domestically in order to present them in a form which is more familiar to readers outside Japan.

The consolidated financial statements are stated in Japanese yen, the currency of the country in which the Company is incorporated and operates. The translation of Japanese yen amounts into U.S. dollar amounts is included solely for the convenience of readers outside Japan and has been made at the rate of ¥102.92 to \$1, the approximate rate of exchange at March 31, 2014. Such translation should not be construed as a representation that the Japanese yen amounts could be converted into U.S. dollars at that or any other rate.

# 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

(a) Consolidation—The consolidated financial statements as at March 31, 2014 include the accounts of the Company and its 35 subsidiaries and two companies accounted for under the equity method.

Under the control or influence concept, those companies in which the Company, directly or indirectly, is able to exercise control over operations are fully consolidated and those companies over which the Group has the ability to exercise significant influence are accounted for by the equity method.

The difference between the cost of an acquisition and the fair value of the net assets of the acquired subsidiary at the date of acquisition is recorded as goodwill. Goodwill recognized by the Company or its consolidated domestic subsidiaries is amortized over a period not exceeding 20 years (estimated effective period). Insignificant goodwill and negative goodwill are recognized in profit or loss in the period the business combinations occurred. All significant intercompany balances and transactions have been eliminated in consolidation. All material

unrealized profits included in assets resulting from transactions within the Group have been eliminated.

#### (b) Unification of Accounting Policies Applied to Foreign Subsidiaries for the Consolidated Financial

**Statements**—In May 2006, the Accounting Standards Board of Japan (the "ASBJ") issued ASBJ Practical Issues Task Force (PITF) No. 18, "Practical Solution on Unification of Accounting Policies Applied to Foreign Subsidiaries for the Consolidated Financial Statements." PITF No. 18 prescribes that (i) the accounting policies and procedures applied to a parent company and its subsidiaries for similar transactions and events under similar circumstances should, in principle, be unified for the preparation of the consolidated financial statements; (ii) financial statements prepared by foreign subsidiaries in accordance with either IFRS or U.S. GAAP tentatively may be used for the consolidation process; (iii) however, the following items should be adjusted in the consolidation process so that net income is accounted for in accordance with Japanese GAAP, unless they are not material: 1) amortization of goodwill; 2) scheduled amortization of actuarial gain or loss of pensions that has been directly recorded in equity; 3) expensing capitalized research and development costs; 4) cancellation of fair value model of accounting for property, plant, and equipment and investment properties, and incorporation of cost model of accounting; and 5) exclusion of minority interests from net income, if contained. PITF No. 18 was effective for fiscal years beginning on or after April 1, 2008.

(c) Business Combination—In December 2008, the ASBJ issued a revised accounting standard for business combinations, ASBJ Statement No. 21, "Accounting Standard for Business Combinations."

Under the revised standard, the acquirer recognizes a gain on bargain purchase (negative goodwill) in profit or loss immediately on the acquisition date after reassessing and confirming that all of the assets acquired and all of the liabilities assumed have been identified after a review of the procedures used in the purchase price allocation, whereas the previous accounting standard provided for a bargain purchase gain to be systematically amortized over a period not exceeding 20 years. This standard was applicable to business combinations undertaken on or after April

#### 1,2010.

The Company resolved at the meeting of its Board of Directors held on April 11, 2013 to acquire shares of Toshiba Finance Corporation (currently, AEON Product Finance Co., Ltd.). As at the same date, the Company concluded the share assignment agreement with Toshiba Corporation and acquired the shares on May 16, 2013. As a result, the Company acquired 100% of the issued and outstanding shares of Toshiba Finance Corporation on May 16, 2013 and accounted for it by the purchase method of accounting. The related goodwill is systematically amortized over 10 years (see Note 20).

(d) Cash Equivalents—Cash equivalents are short-term investments that are readily convertible into cash and that are not exposed to significant risk of changes in value. Cash equivalents of the Company and its consolidated subsidiaries, excluding the domestic subsidiary that operates banking business (hereafter "the domestic banking subsidiary"), include time deposits, certificates of deposit, commercial paper, and bond funds, all of which mature or become due within three months of the date of acquisition. Cash equivalent of the domestic banking subsidiary include due from the Bank of Japan.

(e) Installment Sales Receivables—Installment sales receivables that the Group has the intent and ability to hold for the foreseeable future or until maturity or payoff are reported at their outstanding unpaid principal balances reduced by any write-off or valuation allowance.

(f) Allowance for Possible Credit Losses—The allowance for possible credit losses is stated in accordance with the internally developed standards for write-offs and provisions. The Group classifies its obligors into five categories for self-assessment purposes, namely, "normal," "in need of caution," "possible bankruptcy," "substantial bankruptcy," and "legal bankruptcy." For credits to obligors classified as normal or in need of caution, the allowance for possible credit losses is provided based on the bad debt ratio derived from credit loss experience over a past certain period. For credits classified as possible bankruptcy, the allowance for possible credit losses is provided only for the required amount of the following: credit amount, less the expected amount recoverable through the disposal of collateral or execution of guarantee. For credits classified as substantial bankruptcy or legal bankruptcy, the allowance for possible credit losses is provided for the full amounts of such credits, deducting the expected amount recoverable through the disposal of collateral or execution of collateral or execution of guarantee.

All claims are assessed initially by the operational departments based on the internal standards for self-assessment of asset quality. The Internal Audit Department, which is independent from the operational departments, reviews the results of the self-assessments.

The allowance for possible credit losses of certain consolidated subsidiaries is provided in amounts considered to be appropriate in accordance with their internal standards developed based on the past credit loss experience and evaluation of potential losses in normal receivables and doubtful receivables.

(g) Property and Equipment—Property and equipment are stated at cost. Depreciation of property and equipment is computed under the straight-line method based on the estimated useful lives of the assets. The range of useful lives is principally from two to 20 years.

(h) Securities—Securities are classified and accounted for, depending on management's intent, as follows: available-for-sale securities are reported at fair value, with unrealized gains and losses, net of applicable taxes, reported in a separate component of equity. Available-for-sale securities whose fair values are deemed to be difficult to determine are stated at cost determined by the moving-average method. Securities other than those classified as trading purpose (excluding securities whose fair values are deemed to be difficult to determine) are considered as impaired if the fair values of the securities decreases materially below the acquisition cost and such decline is not considered to be recoverable. The securities are recognized at fair value on the consolidated balance sheet and the amount of write-down is accounted for as loss on revaluation of the securities for the fiscal year.

(i) Software (excluding lease assets)—Software is carried at cost, less accumulated amortization. Amortization of software of the Group is calculated by the straight-line method over the estimate useful lives within five years.

(j) Stock Issuance Costs—Stock issuance costs as at March 31, 2014, which have been deferred and included in other assets, were ¥85 million (\$823 thousand). These costs are amortized by the straight-line method over a period of three years.

(k) Bond Issuance Costs—Bond issuance costs as at March 31, 2014 and 2013, which have been deferred and included in other assets, were ¥398 million (\$3,865 thousand) and ¥122 million, respectively. These costs are amortized by the interest method through the maturity of the bonds.

(I) Allowance for Point Program—The allowance for point program is stated at the amount considered to be appropriate based on the Group's past redemption experience.

(m) Allowance for Loss on Refund of Interest Received—The allowance for loss on refund of interest received (the amount of interest that exceeds the ceiling rate imposed by the Interest Rate Restriction Law) is provided by certain domestic subsidiaries of the Group and is stated at the amount considered to be appropriate based on the Group's past refund experience. In October 2006, "Application of auditing for provision of allowance for loss for reclaimed refund of interest in the accounting of consumer finance companies" of Industry Audit Practice Committee Report No. 37 by the Japanese Institute of Certified Public Accountants was issued and was adopted at the beginning of the fiscal year ended February 20, 2007.

(n) Retirement Benefit and Pension Plans—The Company and its consolidated domestic subsidiaries have a funded defined benefit pension plan, advance payment plan, and defined contribution pension plan covering substantially all employees. An overseas subsidiary has an unfunded severance payment plan for its employees. Certain subsidiaries adopt the simplified method, which is allowed for small entities that meet certain criteria under generally accepted accounting standards in Japan, for calculating the projected benefit obligation and net periodic benefit costs.

In calculation of retirement benefit obligation, estimated amounts of retirement benefits are allocated to each period by the straight-line method.

Unrecognized past service costs of domestic subsidiaries are amortized using the straight-line method within the employees' average remaining service period from the fiscal year of its incurrence, over a period of 10 years.

Unrecognized actuarial gains and losses of domestic subsidiaries are amortized using the straight-line method within the employees' average remaining service period, commencing from the next fiscal year of incurrence, over a period of 10 years.

In May 2012, the ASBJ issued ASBJ Statement No. 26, "Accounting Standard for Retirement Benefits" and ASBJ Guidance No. 25, "Guidance on Accounting Standard for Retirement Benefits," which replaced the accounting standard for retirement benefits that had been issued by the Business Accounting Council in 1998 with an effective date of April 1, 2000, and the other related practical guidance, and were followed by partial amendments from time to time through 2009.

- (i) Under the revised accounting standard, actuarial gains and losses and past service costs that are yet to be recognized in profit or loss are recognized within equity (accumulated other comprehensive income), after adjusting for tax effects, and any resulting deficit or surplus is recognized as a liability (liability for retirement benefits) or asset (asset for retirement benefits).
- (ii) The revised accounting standard does not change how to recognize actuarial gains and losses and past service costs in profit or loss. Those amounts are recognized in profit or loss over a certain period no longer than the expected average remaining service period of the employees. However, actuarial gains and losses and past service costs that arose in the current period and have not yet been recognized in profit or loss are included in other comprehensive income and actuarial gains and losses and past service costs that were recognized in other comprehensive income in prior periods and then recognized in profit or loss in the current period shall be treated as reclassification adjustments.
- (iii) The revised accounting standard also made certain amendments relating to the method of attributing expected benefit to periods and relating to the discount rate and expected future salary increases.

This accounting standard and the guidance for (i) and (ii) above are effective for the end of annual periods beginning on or after April 1, 2013, and for (iii) above are effective for the beginning of annual periods beginning on or after April 1, 2014, or for the beginning of annual periods beginning on or after April 1, 2015, subject to certain disclosure in March 2015, both with earlier application being permitted from the beginning of annual periods beginning on or after April 1, 2013. However, no retrospective application of this accounting standard to consolidated financial statements in prior periods is required.

The Company applied the revised accounting standard and guidance for retirement benefits for (i) and (ii) above, effective March 31, 2014. As a result, liability for retirement benefits of  $\frac{1}{2,790}$  million ( $\frac{1}{27,108}$  thousand) was recorded as other liabilities as of March 31, 2014, and deferred tax assets increased by  $\frac{1}{204}$  million ( $\frac{1}{3,607}$  thousand) for the year ended March 31, 2014.

The effect of this change on per share information is immaterial.

(o) Stock Options—ASBJ Statement No. 8, "Accounting Standard for Stock Options," and related guidance are applicable to stock options granted on and after May 1, 2006.

This standard requires companies to recognize compensation expense for employee stock options based on the fair value at the date of the grant and over the vesting period as consideration for receiving goods or services.

The standard also requires companies to account for stock options granted to nonemployees based on the fair value of either the stock option or the goods or services received. In the consolidated balance sheet, stock options are presented as stock acquisition rights as a separate component of equity until exercised.

The Company has applied the accounting standard for stock options to those granted on and after May 1, 2006.

(p) Recognition of Income—The operations of the Group mainly comprise the following areas, and the recognition of income is different according to each business.

#### (i) Credit card purchase contracts and hire purchase contracts

Installment sales receivables are recognized after the Group has accepted the relevant contracts that participating member stores refer to the Group.

The Group receives fees for collection of the installment sales and the related administrative services from the member stores under credit card purchase contracts and hire purchase contracts for shopping. The fees from the member stores are generally recognized at the time when the Group makes payments for the installment sales receivables to the member stores in advance.

The Group receives fees from customers under credit card purchase contracts and hire purchase contracts. The fees from customers are recognized principally by the effective interest method.

#### (ii) Loans and bills discounted

The Group provides cash advance and loan services. Loans and bills discounted are recognized when cash is drawn down by customers. The interest income and the customer charge at the start of the contract are recognized principally by the effective interest method.

(q) Lease Transactions—All finance lease transactions are capitalized to recognize lease assets and lease obligations on the balance sheets. All other leases are accounted for as operating leases.

(r) Income Taxes—The provision for income taxes is computed based on the pretax income included in the consolidated statement of income. The asset and liability approach is used to recognize deferred tax assets and liabilities for the expected future tax consequences of temporary differences between the carrying amounts and the tax bases of assets and liabilities. Deferred taxes are measured by applying currently enacted tax laws to the temporary differences. A valuation allowance is provided for any portion of the deferred tax assets that is not considered to be realizable.

(s) Consumption Taxes—National and local consumption taxes of the Company and its domestic subsidiaries are accounted for using the tax-excluded method. However, consumption taxes relating to assets that are not tax deductible are recognized as other assets and amortized over the period stipulated in the Corporation Tax Act.

(t) Appropriations of Retained Earnings—Appropriations of retained earnings are reflected in the consolidated financial statements in the following year upon the Board of Directors' resolution or shareholders' approval.

(u) Foreign Currency Transactions—All short-term and long-term monetary receivables and payables denominated in foreign currencies are translated into Japanese yen at the exchange rates at each balance sheet date. The foreign exchange gains and losses from translation are recognized in the consolidated statements of income to the extent that they are not hedged by forward exchange contracts.

(v) Foreign Currency Financial Statements—The balance sheet accounts of the foreign subsidiaries are translated into Japanese yen at the current exchange rate as of each balance sheet date, except for equity, which is translated at the historical rate. Differences arising from such translation were shown as "Foreign currency translation adjustments" under accumulated other comprehensive income in a separate component of equity. Revenue and expense accounts of foreign subsidiaries are translated into yen at the average exchange rate.

(w) Derivative Financial Instruments—The Group uses derivative financial instruments to manage its exposures to market fluctuations in foreign currency exchange and interest rates. The Group enters into forward exchange contracts, currency swap contracts, and interest rate swap contracts to reduce its exposures to foreign currency and interest rate risk. The Group does not enter into any derivative contracts for trading or speculative purposes.

Derivative financial instruments and foreign currency transactions are classified and accounted for as follows: (i) all derivatives are recognized as either assets or liabilities and measured at fair value with gains or losses on derivative transactions recognized in the consolidated statements of income and (ii) for derivatives used for hedging purposes, if the derivatives qualify for hedge accounting because of a high correlation and effectiveness between the hedging instruments and the hedged items, gains or losses on the derivatives are deferred until the maturity of the hedged items. Foreign currency-denominated long-term debt for which forward exchange contracts are used as hedging instruments are translated at the forward exchange rate if the derivatives qualify for hedge accounting. Interest rate swaps are utilized to hedge interest rate exposures of long-term debt. In principle, these swaps which qualify for hedge accounting are measured at market value at the consolidated balance sheet date and the unrealized gains or losses, net of applicable taxes, are deferred until maturity as deferred gain/loss on derivatives under hedge accounting under accumulated other comprehensive income in a separate component of equity. Interest rate swaps which qualify for hedge accounting and meet specific matching criteria are not remeasured at market value, but the differential paid or received under the swap agreements is recognized and included in interest expense or income.

(x) Per Share Information—Basic net income per share is computed by dividing net income available to common shareholders by the weighted-average number of common shares outstanding for the period. Diluted net income per share reflects the potential dilution that could occur if outstanding stock acquisition rights were exercised. Diluted net income per share of common stock is calculated assuming all outstanding stock acquisition rights are exercised.

Cash dividends per share presented in the accompanying consolidated statements of income are dividends applicable to the respective years, including dividends to be paid after the end of the year.

#### (y) Accounting Changes and Error Corrections

In December 2009, the ASBJ issued ASBJ Statement No. 24, "Accounting Standard for Accounting Changes and Error Corrections," and ASBJ Guidance No. 24, "Guidance on Accounting Standard for Accounting Changes and Error Corrections." Accounting treatments under this standard and guidance are as follows:

( i ) Changes in accounting policies

When a new accounting policy is applied due to a revision of accounting standards, the new policy is applied retrospectively, unless the revised accounting standards include specific transitional provisions. When the revised accounting standards include specific transitional provisions, an entity shall comply with the specific transitional provisions.

(ii) Changes in presentation

When the presentation of financial statements is changed, prior-period financial statements are reclassified in accordance with the new presentation.

(iii) Changes in accounting estimates

A change in an accounting estimate is accounted for in the period of the change if the change affects that period only and is accounted for prospectively if the change affects both the period of the change and future periods. (iv) Correction of prior-period errors

When an error in prior-period financial statements is discovered, those statements are restated.

# (z) New Accounting Pronouncements

#### **Retirement Benefits**

On May 17, 2012, the ASBJ issued ASBJ Statement No. 26, "Accounting Standard for Retirement Benefits" (hereafter the "Accounting Standard"), and ASBJ Guidance No. 25, "Guidance on Accounting Standard for Retirement Benefits" (hereafter the "Guidance"), which replaced the Accounting Standard for Retirement Benefits that had been issued by the Business Accounting Council in 1998 with an effective date of April 1, 2000 and the other related practical guidance, being followed by partial amendments from time to time through 2009.

Major changes are as follows:

(i) Treatment in the balance sheet

Under the current requirements, actuarial gains and losses and past service costs that are yet to be recognized in profit or loss are not recognized in the balance sheet, and the difference between retirement benefit obligations and plan assets (hereinafter, "deficit or surplus"), adjusted by such unrecognized amounts, is recognized as a liability or asset.

Under the Accounting Standard, actuarial gains and losses and past service costs that are yet to be recognized in profit or loss shall be recognized within equity (accumulated other comprehensive income), after adjusting for tax effects, and any resulting deficit or surplus shall be recognized as a liability (liability for retirement benefits) or asset (asset for retirement benefits).

(ii) Treatment in the statement of income and the statement of comprehensive income

The Accounting Standard does not change how to recognize actuarial gains and losses and past service costs in profit or loss. Those amounts would be recognized in profit or loss over a certain period no longer than the expected average remaining working lives of the employees. However, actuarial gains and losses and past service costs that arose in the current period and have not yet been recognized in profit or loss shall be included in other comprehensive income. Actuarial gains and losses and past service costs that were recognized in other comprehensive income in prior periods and then recognized in profit or loss in the current period shall be treated as

comprehensive income in prior periods and then recognized in profit or loss in the current period shall be treated as reclassification adjustments.

(iii) Amendments relating to the method of attributing expected benefit to periods and relating to the discount rate and expected future salary increases

The Accounting Standard also made certain amendments relating to the method of attributing expected benefit to periods and relating to the discount rate and expected future salary increases.

The Accounting Standard and the Guidance for (i) and (ii) above are effective for the end of annual periods beginning on or after April 1, 2013, and for (iii) above are effective for the beginning of annual periods beginning on or after April 1, 2014, or for the beginning of annual periods beginning on or after April 1, 2015, subject to certain disclosure in March 2015, both with earlier application being permitted from the beginning of annual periods beginning on or after April 1, 2013. However, no retrospective application of this accounting standard to consolidated financial statements in prior periods is required.

The Company applied the Accounting Standard for (i) and (ii) above from the end of the annual period beginning on April 1, 2013, and the Company expects to apply the Accounting Standard for (iii) above from the beginning of the annual period beginning on April 1, 2014, and is in the process of measuring the effects of applying the revised accounting standard in future applicable periods.

### 3. MONETARY CLAIMS BOUGHT AND SECURITIES

Monetary claims bought and securities as at March 31, 2014 and securities in banking business and investment securities as at March 31, 2013, consisted of the following:

					11	nousands of
	Millions of Yen					.S. Dollars
		2014		2013		2014
Marketable equity securities	¥	5,755	¥	5,689	\$	55,913
Marketable debt securities:

# 4. LOANS AND BILLS DISCOUNTED, INSTALLMENT SALES RECEIVABLES, AND FEES AND COMMISSIONS

Loans and bills discounted as at March 31, 2014, consisted of the following:

······································	0	Millions of Yen		Millions of Yen		Millions of Yen		housands of J.S. Dollars
		2014		2014				
Loans and bills discounted	¥	1,276,741	\$	12,405,187				
Allowance for possible credit losses		(27,926)		(271,340)				
Total	¥	1,248,815	\$	12,133,847				

Loans and bills discounted as at March 31, 2014, included the following:

	Millions of Yen			ousands of S. Dollars
				2014
Loans to bankrupt borrowers <sup>(*1)</sup>	¥	938	\$	9,109
Non-accrual delinquent loans <sup>(*2)</sup>		22,284		216,522
Restructured loans <sup>(*3)</sup>		14,490		140,792
Total	¥	37,712	\$	366,423

(\*1) "Loans to bankrupt borrowers" are loans, after write-off, to legally bankrupt borrowers as defined in Articles 96-1-3 and 96-1-4 of the Enforcement Ordinance No. 97 of the Japanese Corporate Tax Law (issued in 1965), and on which accrued interest income is not recognized as there is substantial doubt about the ultimate collectability of either principal or interest because they are past due for a considerable period of time or for other reasons.

(\*2) "Non-accrual delinquent loans" are loans on which accrued interest income is not recognized, excluding "Loans to bankrupt borrowers" and loans on which interest payments are deferred in order to support the borrowers' recovery from financial difficulties.

(\*3) "Restructured loans" are loans on which terms and conditions have been amended in favor of the borrowers (e.g., reduction of the original interest rate, deferral of interest payments, extension of principal repayments, or debt forgiveness) in order to support the borrowers' recovery from financial difficulties, excluding "Loans to bankrupt borrowers," "Non-accrual delinquent loans," and "Past due loans (three months or more)."

There were no loans to be categorized as past due loans (three months or more) as at March 31, 2014. "Past due loans (three months or more)" are loans on which the principal and/or interest is past due for three months or more, excluding "Loans to bankrupt borrowers" and "Non-accrual delinquent loans."

Bills discounted are accounted for as financial transactions in accordance with JICPA Industry Audit Committee Report No. 24. The Group has rights to sell or pledge commercial bills discounted without restrictions. The total face value as at March 31, 2014 was ¥1,118 million (\$10,867 million).

Installment sales receivables as at March 31, 2014, consisted of the following:

	Millions of Yen		ousands of .S. Dollars
		2014	 2014
Installment sales receivables:			
Credit card purchase contracts	¥	748,828	\$ 7,275,824
Hire purchase contracts		208,576	2,026,585
Subtotal		957,404	9,302,409
Allowance for possible credit losses		(19,645)	(190,878)
Total	¥	937,759	\$ 9,111,531

Fees and commissions for the year ended March 31, 2014, included the following:

	Millions of Yen	ousands of S. Dollars
	2014	 2014
Credit card purchase contracts	¥ 92,280	\$ 896,621

# 5. PROPERTY AND EQUIPMENT

Property and equipment as at March 31, 2014, consisted of the following:

	Millio	ns of Yen	ousands of S. Dollars
		2014	 2014
Land	¥	742	\$ 7,212
Structures		8,469	82,289

Other property and equipment		8,655	84,098
Subtotal		61,684	599,336
Accumulated depreciation		(30,498)	(296,328)
Total	¥	31,186	\$ 303,008

# 6. INTANGIBLE ASSETS

Intangible assets as at March 31, 2014, consisted of the following:

	Millions of Yen			ousands of S. Dollars
		2014		2014
Software	¥	31,243	\$	303,572
Goodwill (Notes 14 and 20)		28,888		280,680
Other intangible assets		7,592		73,769
Total	¥	67,723	\$	658,021

# 7. PLEDGED ASSETS

Assets pledged as collateral as at March 31, 2014 and 2013, consisted of the following:

	Millions of Yen				Thousands of U.S. Dollar	
		2014	2013			2014
Assets pledged as collateral:						
Securities	¥	4,990			\$	48,484
Operating loan receivables			¥	11,302		
Loans and bills discounted		12,696				123,364
Installment sales receivables		15,381		15,682		149,443
Total	¥	33,067	¥	26,984	\$	321,291
Liabilities corresponding to assets pledged as collateral:						
Call money		4,900				47,610
Long-term debt				17,813		
Borrowed money		17,579		-		170,806

In addition to the assets presented above, the following assets were pledged as collateral for exchange settlements and other transactions as at March 31, 2014 and 2013:

		Millions	of Yer	1	ousands of S. Dollars
		2014		2013	 2014
Securities in banking business			¥	21,498	
Securities	¥	22,041			\$ 214,154

Moreover, other assets included guarantee money deposits, and these amounts as at March 31, 2014 and 2013, are as follows:

		Millions	of Yen			usands of 5. Dollars
		2014	2013		2014	
Guarantee money deposits	¥	4,074	¥	3,815	\$	39,582

# 8. BORROWED MONEY, BONDS, AND LEASE OBLIGATIONS

Borrowed money and lease obligations included in other liabilities as at March 31, 2014, consisted of the following:

	Millions of Yen	Thousands of U.S. Dollars	Average interest rate <sup>(*1)</sup>	
	2014	2014	2014	Due
Borrowed money	¥ 515,228	\$ 5,006,098	2.54%	From April 2014 to December 2020
Lease obligations	12,607	122,497	2.03%	From May 2014 to March 2022

(\*1) Average interest rate represents the weighted-average interest rate based on the balances and rates at the end of fiscal year.

Net periodic benefit costs	¥	315	\$	3,061

(\*) Includes the cost calculated by the simplified method.

(e) Accumulated other comprehensive income on defined retirement benefit plans as at March 31, 2014:

	Millions	Millions of Yen		usands of . Dollars
	2			2014
Unrecognized past service costs	¥	175	\$	1,701
Unrecognized actuarial gains and losses		401		3,897
Total	¥	576	\$	5,598

(f) Plan assets

( i ) Components of plan assets

Plan assets consisted of the following:

	2014
Debt securities	59.3%
Equity securities	12.6%
Assets in the life insurer's general account	12.4%
Other <sup>(*)</sup>	15.7%
Total	100.0%

(\*) Includes mainly cash and alternative investments.

(ii) Method of determining the expected rate of return on plan assets
 The expected rate of return on plan assets is determined considering the long-term rates of return which are expected currently and in the future from the various components of the plan assets.

(g) Assumptions used for the year ended March 31, 2014, were set forth as follows:

	2014
Discount rate	mainly 1.9%
Expected rate of return on plan assets	1.13%

The required contribution amount to the defined contribution pension plan is ¥237 million (\$2,300 thousand).

The amount of benefits paid under the advance payment plan is ¥56 million (\$540 thousand).

#### For the year ended March 31, 2013

The Company and its consolidated domestic subsidiaries sponsor a defined benefit pension plan, advance payment plan, and defined contribution pension plan for their employees. An overseas subsidiary has a severance payment plan for employees.

The net retirement benefit liability, which was booked under other assets and/or other liabilities as at March 31, 2013, consisted of the following:

	Milli	ions of Yen
		2013
Projected benefit obligation	¥	1,740
Fair value of plan assets		(987)
Unrecognized actuarial loss		(378)
Net retirement benefit liability	¥	375
Asset		(45)
Liability	¥	420

The components of net periodic benefit costs for the year ended March 31, 2013, were as follows: Millions of Van

	IVIIIIIOI	
	2	013
Service cost	¥	197
Interest cost		28
Expected return on plan assets		(11)
Recognized actuarial loss		95
Other		165
Total	¥	474

Assumptions used for the year ended March 31, 2013, were set forth as follows:

	2013
Discount rate	1.9%
Expected rate of return on plan assets	1.33%
Recognition period of actuarial gain/loss	10 years

# **10. EQUITY**

Japanese companies are subject to the Companies Act of Japan (the "Companies Act"). The significant provisions in the Companies Act that affect financial and accounting matters are summarized below:

2010

#### (a) Dividends

Under the Companies Act, companies can pay dividends at any time during the fiscal year in addition to the year-end dividend upon resolution at the shareholders' meeting. For companies that meet certain criteria, such as (i) having a Board of Directors, (ii) having independent auditors, (iii) having an Audit & Supervisory Board, and (iv) the term of service of the directors is prescribed as one year rather than two years of normal term by its articles of incorporation, the Board of Directors may declare dividends (except for dividends in kind) at any time during the fiscal year if the company has prescribed so in its articles of incorporation.

The Board of Directors of the Company can declare dividends without resolution at the shareholders' meeting, since the Company is organized as a company with board committees and meet the above criteria. The Companies Act permits companies to distribute dividends in kind (noncash assets) to shareholders subject to certain limitations and additional requirements.

Semiannual interim dividends may also be paid once a year upon resolution by the Board of Directors if the articles of incorporation of the Company so stipulate. The Companies Act provides certain limitations on the amounts available for dividends or the purchase of treasury stock. The limitation is defined as the amount available for distribution to the shareholders, but the amount of net assets after dividends must be maintained at no less than ¥3 million.

#### (b) Increases/decreases and transfer of common stock, reserve, and surplus

The Companies Act requires that an amount equal to 10% of dividends must be appropriated as a legal reserve (a component of retained earnings) or as additional paid-in capital (a component of capital surplus) depending on the equity account charged upon the payment of such dividends until the total of the aggregate amount of the legal reserve and additional paid-in capital equals 25% of the amount of common stock. Under the Companies Act, the total amount of additional paid-in capital and legal reserve may be reversed without limitation of such threshold. The Companies Act also provides that common stock, legal reserve, additional paid-in capital surplus,

and retained earnings can be transferred among the accounts under certain conditions upon resolution of the shareholders.

#### (c) Treasury stock and treasury stock acquisition rights

The Companies Act also provides for companies to purchase treasury stock and dispose of such treasury stock by resolution of the Board of Directors. The amount of treasury stock purchased cannot exceed the amount available for distribution to the shareholders, which is determined by a specific formula. Under the Companies Act, stock acquisition rights, which were previously presented as a liability, are now presented as a separate component of equity. The Companies Act also provides that companies can purchase both treasury stock acquisition rights and treasury stock. Such treasury stock acquisition rights are presented as a separate component of equity or deducted directly from stock acquisition rights.

#### (d) Significant change in equity

The Company's common stock and capital surplus increased by \$13,585 million (\$131,996 thousand) each, and convertible bonds the Company issued decreased by \$27,170 million (\$263,992 thousand). These changes were due to the conversion of convertible bonds into shares.

### **11. STOCK-BASED COMPENSATION**

The stock options outstanding as at March 31, 2014, were as follows:

*	e	Number of					
	Persons	Options					
Stock Option	Granted	Granted	Date of Grant	Exercise Price	Exer	cise Pe	riod
2012 Stock Option	12 directors	15,500 shares	April 21, 2011	¥ 1	From 1	May 21	, 2011
*				\$ 0.01	through	May 2	0, 2026
2013 Stock Option	6 directors	12,100 shares	April 21, 2012	¥ 1	From 1	May 21	, 2012
				\$ 0.01	through		
2014 Stock Option	6 directors	12,000 shares	July 21, 2013	¥ 1	From A		
				\$ 0.01	through A	August	20, 2028
The summary of st	ock option activ	ity is as follows:					
				2014	2013		2012
				Stock	Stock		Stock
				Option	Option	(	Option

The assumptions used to measure fair value of stock options vested during fiscal year 2014 were as follows:

	2014
	Stock Option
Measurement method	Black-Scholes option-pricing model
Risk-free interest rate	0.61%
Expected life of option grants	7.5 years
Expected volatility of underlying stock	45.32%
Estimated dividend	¥60 per share

# **12. OTHER INCOME**

Other income for the year ended March 31, 2014, consisted of the following:

	e	Millions of Yen		Thousands of U.S. Dollars 2014	
Gain on bad debts recovered	¥	9,238	\$	89,758	
Other		6,912		67,155	
Total	¥	16,150	\$	156,913	

#### **13. INCOME TAXES**

The Company and its domestic subsidiaries are subject to Japanese national and local income taxes, which, in the aggregate, resulted in a normal effective statutory tax rate of approximately 37.7% for the years ended March 31, 2014 and 2013. The tax effects of significant temporary differences and tax loss carryforwards, which resulted in deferred tax assets and liabilities as at March 31, 2014 and 2013, were as follows:

		Millions	of Ye	n	ousands of .S. Dollars
		2014		2013	2014
Deferred tax assets:					
Allowance for possible credit losses	¥	8,661	¥	8,022	\$ 84,157
Finance receivables				243	
Loans and bills discounted and installment sales receivables		331			3,218
Allowance for point program		4,136		3,402	40,182
Allowance for loss on refund of interest received		1,089		1,403	10,584
Accrued income		798		847	7,752
Property and equipment		378		173	3,675
Intangible assets		73		107	707
Liability for retirement benefits		956			9,289
Tax loss carryforwards		12,512		15,277	121,570
Unrealized loss on acquisition of subsidiaries		2,179		4,032	21,170
Other		4,359		4,740	42,355
Less valuation allowance		(12,783)		(16,932)	(124,205)
Total deferred tax assets	¥	22,689	¥	21,314	\$ 220,454
Deferred tax liabilities:					
Depreciation in consolidated foreign subsidiaries	¥	439	¥	417	\$ 4,264
Unrealized gain on available-for-sale securities		1,938		2,082	18,829
Unrealized gain on acquisition of subsidiaries		3,150		4,497	30,608
Other		224		291	2,179
Total deferred tax liabilities	¥	5,751	¥	7,287	\$ 55,880
Net deferred tax assets	¥	16,938	¥	14,027	\$ 164,574

Reconciliations between the normal effective statutory tax rates and the actual effective tax rates reflected in the accompanying consolidated statements of income for the years ended March 31, 2014 and 2013, were as follows:

	2014	2013
Normal effective statutory tax rate	37.7%	37.7%
Earnings not taxable and expenses not deductible for income tax purposes-net	(3.3)	(2.6)
Per capita portion of inhabitants tax	0.7	0.6
Lower income tax rates applicable to income in certain foreign countries	(7.2)	(7.3)
Influence of elimination in consolidation	6.1	7.6
Influence of changes in the statutory tax rate	5.0	4.3
Tax loss carryforwards	(5.5)	(4.4)
Less valuation allowance	(4.7)	1.3
Other	1.1	0.3
Actual effective tax rate	29.9%	37.5%

#### **Changes in the Statutory Tax Rates**

According to the promulgation of the "Act on Partial Revision of the Income Tax Act, etc." (Law No. 10, 2014) on March 31, 2014, the special corporate tax for reconstruction will be repealed from the fiscal years beginning on or after April 1, 2014. This new tax reform law enacted in 2014 in Japan changed the normal effective statutory tax rate for the fiscal year beginning on or after April 1, 2014 from 37.7% to 35.3%. The effect of this change was to decrease deferred tax assets in the consolidated balance sheet as at March 31, 2014 by ¥934 million (\$9,077 thousand) and to increase income taxes—deferred in the consolidated statement of income for the year then ended by ¥934 million (\$9,077 thousand).

#### 14. SUPPLEMENTAL CASH FLOW INFORMATION

#### Purchases of newly consolidated subsidiaries

For the year ended March 31, 2014, the Company acquired 100% of the issued and outstanding shares of AEON Product Finance Co., Ltd. and turned it into a newly consolidated subsidiary. Assets and liabilities of AEON Product Finance Co., Ltd. at the time of the acquisition were as follows:

	Mill	Millions of Yen		ousands of .S. Dollars
Total assets	¥	317,420	\$	3,084,143
Of which: customers' liabilities				
for acceptances and guarantees		235,846		2,291,549
Of which: installment sales				
receivables		73,856		717,602
Total liabilities		313,360		3,044,691
Of which: acceptances and				
guarantees		235,846		2,291,549
Of which: borrowed money		56,087		544,957
Goodwill		1,782		17,313
Total acquisition cost of AEON				
Product Finance Co., Ltd.		5,842		56,765
Cash and cash equivalents of				
AEON Product Finance Co., Ltd.		(2,908)		(28,262)
Cash paid in conjunction with the				
purchase of AEON Product				
Finance Co., Ltd.	¥	2,934	\$	28,503

For the year ended March 31, 2013, the Company executed a share exchange with AEON Bank, Ltd., in which the Company became the wholly-owning parent company and AEON Bank, Ltd. became the wholly-owned subsidiary company. Assets and liabilities of AEON Bank, Ltd. and one other company that were newly consolidated at the time of the share exchange were as follows:

	Mil	lions of Yen
Current assets	¥	1,221,266
Noncurrent assets		15,794
Total assets acquired	¥	1,237,060
Current liabilities Long-term liabilities	¥	(1,182,169) (3,019)
Total liabilities assumed	¥	(1,185,188)

The cash and cash equivalents of  $\pm 205,109$  million at the time of the share exchange are included in the current assets and recognized in "Increase in cash and cash equivalents resulting from share exchange."

# **15. LEASES**

The Group leases equipment, software, and other assets.

Total rental expenses for the years ended March 31, 2014 and 2013 were ¥9,848 million (\$95,682 thousand) and ¥7,804 million, respectively.

The minimum rental commitments under noncancelable operating leases as at March 31, 2014 and 2013 were as follows:

		Millions	of Yen		usands of 5. Dollars
		2014		2013	 2014
Due within one year	¥	1,930	¥	1,386	\$ 18,750
Due after one year		2,468		1,597	23,986
Total	¥	4,398	¥	2,983	\$ 42,736

#### 16. FINANCIAL INSTRUMENTS AND RELATED DISCLOSURES

#### (a) Conditions of financial instruments

(i) Group policy for financial instruments

The Group operates a variety of financial services business, such as credit card business, housing loan business, and hire purchase business. The domestic banking subsidiary invests in securities, including debt securities, as well.

The Group raises capital mainly through customer deposits, borrowings from financial institutions, issuance of bonds and commercial paper, and securitization of receivables in the view of the market conditions and short-term/long-term balance. Certain subsidiaries are located overseas, and they conduct their business in foreign currencies.

The Group holds financial assets and liabilities, which are exposed to interest rate risk and foreign exchange risk, and manages the interest rate risk through Asset Liability Management.

The Group also utilizes derivative financial instruments to hedge interest rate risk and foreign exchange risk, but does not enter into derivative transactions for trading or speculative purposes.

(ii) Nature and extent of risks arising from financial instruments

The Group's major financial assets are loans and installment sales receivables for customers such as housing loans and credit card services and corporate loans, which are exposed to credit risk of customer defaults and interest rate risk. In addition, securities, such as foreign securities, debt securities, and equity securities, and monetary claims bought are mainly exposed to market risk and credit risk of their issuers.

Financial liabilities, such as deposits, borrowed money, and bonds, are exposed to liquidity risk in that the Group cannot make necessary payments upon due dates under certain circumstances, such as when it cannot access the market due to changes in financial situation or other situations or when its financial results deteriorate.

The Group enters into derivative transactions to avoid part of its exposure to interest rate risk and foreign exchange risk. Derivative financial instruments include interest rate swap contracts and currency swap contracts, and are used to hedge interest rate risk and foreign exchange risk. These instruments are exposed to credit risk of counterparty defaults.

(iii) Risk management for financial instruments

The Company considers that the Group's risk management is one of the most important issues for the Group's management. The Board of Directors resolves the fundamental matters on risk management as the highest decision-making body. Information concerning risk management is regularly reported to the Board. In addition, the Company has established the Risk Management Committee to conduct group-wide risk management based on the basic risk management policy resolved by the Board of Directors. The Company also established the Risk Management Department as a supervisory function for management of risks related to financial instruments. As a bank holding company, the Company recognizes an appropriate control over the Group's risks as one of the key challenges of the business operation of the Group. In order to develop group-wide risk management structures, the fundamental matters on risk management for the Group are set forth in "Group Risk Management Policies."

These risk management structures are internally audited by the Audit Department, which is independent from the audited departments, to verify their effectiveness and appropriateness.

#### • Credit risk management

The Group manages credit risk with appropriate credit assessment and management in accordance with the Group's credit risk control policies and structures. This credit assessment and management is conducted by the following divisions: the credit assessment division keeps track of the credit status of customers at the time of and after credit extension and the credit management division conducts analysis and research on credit risk and collaborate with the credit assessment division. In addition, Value at Risk (an estimated amount of loss on financial instruments held by the Group for a certain future time period based on the historical data at a certain confidence level, hereafter "VaR") is measured to quantify credit risk and regularly reported to the Risk Management Committee and the Board of Directors.

Credit risk arising from default of the counterparties of derivative transactions is considered to be limited, as such transactions are conducted with various highly credible financial institutions.

Market risk management

The Company appropriately manages market risk by determining the position and scale of the risk in accordance with the Group's market risk control policies and structures. The status of risk management is regularly reported to

the Risk Management Department and the Risk Management Committee. The Group maintains a reciprocal control mechanism as an organizational system to manage the market risk by establishing an internal organization independent from the revenue-generating divisions. In addition, Quantitative market risk analysis is performed for all financial instruments held by the Group to manage the risk level by using VaR. Specifically, the market risk is controlled so that VaR does not exceed risk limits (allocated capital amount) resolved by the Board of Directors. (1) Interest rate risk management

The Company implements the interest rate risk management structure throughout the Group in order to appropriately respond to customer needs for various financial services provided by the Group and improve its overall earning capacity. The Risk Management Department measures VaR and Basis Point Value (which denotes the change in value of a financial instrument when, for example, the interest rate changes by a 10 basis point (0.1 percentage)) to manage interest rate risk. In addition, the Risk Management Department performs stress tests and regularly reports to the Risk Management Committee and the Board of Directors.

(2) Security price risk management

The risk of holding investments, including securities, is managed under the basic policy of risk management: "to promote comprehensive risk management for the purpose of maintaining the soundness of management and achieving a steady and sustaining growth by self-controlling the market risk as a whole with comparison to the Group's financial strength determined by management." The Group measures the security price risk through VaR and regularly monitors the results of VaR and stress tests against the risk limits to ensure both soundness and profitability of securities. In addition, the Group regularly reports the monitoring results of the investments, including debt and equity securities issuers' performance, to the Risk Management Committee and the Board of Directors, as changes in creditworthiness of the securities issuers affect the price of the securities. (3) Foreign exchange risk management

Of the various market risk to which the Group is exposed, foreign exchange risk of foreign currency financial instruments is hedged by raising funds in foreign currencies and utilizing currency swap contracts and interest rate swap contracts, so that part of the effect resulting from fluctuations in each exchange rate is avoided. The Risk Management Department monitors fluctuations of foreign exchange rates and regularly reports to the Risk Management Committee and the Board of Directors. Risk measurement through VaR is not performed for the foreign exchange risk, as the quantitative impact is considered to be limited.

(4) Derivative financial instruments

The Group hedges the interest rate risk and foreign exchange risk related to financing by utilizing derivative financial instruments. The Group contemplates the terms and conditions, including price, period, and timing of settlement, in entering into the derivative contracts. The department that conducts the transactions and the department that monitors the transactions are separated.

(5) Quantitative information on market risk

As for interest rate risk, The Group applies the delta model (holding period: 240 days, historical observation period: one year, and confidence interval: 99%) to calculate VaR. The amount of VaR as at March 31, 2014 is ¥3,453 million (\$33,548 thousand) (2013: ¥5,060 million). Although certain domestic subsidiaries and foreign subsidiaries hold financial instruments that are not subject to the VaR measurement, an effect of 10 basis point (0.1 percentage) change in the benchmark interest rate is considered to be limited, assuming that every other risk parameter is constant. For security price risk other than interest rate risk, the Group applies the Monte-Carlo simulation (holding period: three months, historical observation period: five years, and confidence interval: 99%) to calculate VaR. The amount of VaR as at March 31, 2014 is ¥38,065 million (\$369,851 thousand) (2013: ¥6,285 million).

These figures represent the market volatility statically calculated based on a probability-based approach that takes into account historical credit spread and fluctuation in correlations. Accordingly, the market risk may not be captured properly in the event of an extreme market movement beyond normal expectations. • Liquidity risk management

The Group manages liquidity risk through continuous monitoring of cash flows to maintain the appropriate funding level and through other means, including diversifying financial instruments, acquiring commitment lines from multiple financial institutions, and adjusting short-term/long-term balances taking into account the market conditions.

The domestic banking subsidiary controls liquidity risk by establishing a payment reserve asset holding ratio and cash gap limits, which are monitored by the Risk Management Department on a daily basis. The monitoring results are reported regularly to the Risk Management Committee and the Board of Directors. Although the domestic banking subsidiary places value on efficient cash management, it places more weight on securing liquidity for risk management purposes.

(iv) Supplementary information on fair value of financial instruments

The fair values of financial instruments are measured based on quoted market prices, if available, or a reasonably assessed value if a quoted market price is not available. In the case of the latter, certain assumptions and variable preconditions are adopted. Accordingly, if different assumptions and preconditions are adopted, the calculated amount of the fair value may also be different.

See Note 17 for the details regarding fair value for derivatives.

(b) Fair value of financial instruments The following presents the carrying amount of financial instruments in the consolidated balance sheet, the fair value, and the difference between the two as at March 31, 2014 and 2013. Financial instruments whose fair values are deemed to be difficult to determine are not included in the fair value disclosure.

(i) Fair value of financial instruments

#### For the year ended March 31, 2014

(1) Cash and cash equivalents and (2) Deposits with banks

The carrying amounts of cash and cash equivalents and deposits with banks are considered to approximate their fair values because of their short maturities.

(3) Monetary claims bought

The fair value of monetary claims bought is determined based on prices provided by financial institutions or the discounted present value of future cash flows.

(4) Securities

The fair value of equity securities is determined with reference to quoted prices on the stock exchange. The fair value of debt securities is determined based on prices published by the Japanese Securities Dealers Association, prices provided by financial institutions, or the discounted present value of future cash flows.

(5) Loans and bills discounted-net of allowance for possible credit losses

① Loans and bills discounted in banking business

The carrying amount of loans and bills discounted in the banking business with floating interest rates approximates the fair value as long as borrowers' credit risks have not changed significantly after the execution of loans because the market rates are promptly reflected in the floating interest rates. The fair value of loans and bills discounted in the banking business with fixed-interest rates is the present value that is estimated for each classification based on the type, internal rating, and term of the loans, and by discounting the total amounts of the principal and interest using the rates at which similar new loans would be made. For loans and bills discounted in the banking business with maturity less than one year, the carrying amount is considered to approximate their fair values because of their short maturities.

For loans to borrowers which are bankrupt, substantially bankrupt, or potentially bankrupt, an allowance is provided based on amounts expected to be collected through the disposal of collateral or execution of guarantees. The carrying value of those loans, net of allowance for possible credit losses, as of the consolidated balance sheet date is a reasonable estimate of the fair values of those loans.

The carrying amount of loans and bills discounted in the banking business that do not have fixed maturities due to loan characteristics, such as limited loan amounts within the value of pledged assets, approximates the fair value due to their expected repayment periods and interest rate conditions.

2 Loan receivables in credit card business

The fair value of loan receivables in credit card business is determined by discounting expected cash flows (credit risk incorporated) of each segmented product with a discount rate consisting of a risk-free rate and collection costs of each product (expense ratio).

(6) Installment sales receivables-net of allowance for possible credit losses

The fair value of installment sales receivables is determined by discounting expected cash flows (credit risk incorporated) of each segmented product with a discount rate consisting of a risk-free rate and collection costs of each product (expense ratio).

(7) Deposits

For demand deposits, the amount payable on demand as of the consolidated balance sheet date is considered to be the fair value. The fair value of time deposits is calculated based on the discounted present value of future cash flows by certain time period. The discount rate used in the calculation is the interest rate that would be applied to newly accepted deposits. For short-term deposits, the carrying amount is considered to approximate their fair values because of their short maturities.

(8) Accounts payable

The carrying amount of accounts payable is considered to approximate their fair values because these items will be settled in a short period of time.

(9) Borrowed money

The fair value of borrowed money is determined by discounting the total amounts of principal and interest by a risk-free rate adjusted for credit risk. The carrying amount of short-term borrowed money (within one year) is considered to approximate their fair values because these items will be settled in a short period of time. (10) Bonds and (11) Convertible bonds

The fair values of bonds and convertible bonds are determined with reference to quoted market prices.

(12) Derivative financial instruments

Information on the fair values of derivative financial instruments is included in Note 17.

#### For the year ended March 31, 2013

(1) Cash and cash equivalents and (2) Call loans

The carrying amounts of cash and cash equivalents and call loans are considered to approximate their fair values because of their short maturities.

(3) Finance receivables-net of allowance for possible credit losses

The fair value of finance receivables is determined by discounting expected cash flows (credit risk incorporated) of each segmented product with a discount rate consisting of a risk-free rate and collection costs of each product (expense ratio).

(4) Loans and bills discounted in banking business-net of allowance for possible credit losses

The carrying amount of loans in the banking business with floating interest rates approximates the fair value as long as borrowers' credit risks have not changed significantly after the execution of loans because the market rates are promptly reflected in the floating interest rates. The fair value of loans in the banking business with fixed-interest rates is the present value that is estimated for each classification based on the type, internal rating, and term of the loans, and by discounting the total amounts of the principal and interest using the rates at which similar new loans would be made. For loans in the banking business with maturity less than one year, the carrying amount is considered to approximate their fair values because of their short maturities.

For loans to borrowers which are bankrupt, substantially bankrupt, or potentially bankrupt, an allowance is provided based on amounts expected to be collected through the disposal of collateral or execution of guarantees. The carrying value of those loans, net of allowance for possible credit losses, as of the consolidated balance sheet date is a reasonable estimate of the fair values of those loans.

The carrying amount of loans in the banking business that do not have fixed maturities due to loan characteristics, such as limited loan amounts within the value of pledged assets, approximates the fair value due to their expected repayment periods and interest rate conditions.

(5) Securities in banking business

The fair value of bonds is determined based on prices published by the Japanese Securities Dealers Association, prices provided by financial institutions, or the discounted present value of future cash flows. The fair value of monetary claims bought is determined based on prices provided by financial institutions or the discounted present value of future cash flows.

(6) Investment securities

The fair value of stock with market quotations is determined with reference to quoted market prices. Stock with no market quotations and trust beneficiary rights are considered to be financial instruments whose fair values are deemed to be difficult to determine. Their fair values are not included in the fair value disclosure. (7) Accounts payable and (9) Short-term borrowings

The carrying amounts of accounts payable and short-term borrowings are considered to approximate their fair

values because these items will be settled in a short period of time.

(8) Deposits in banking business

For demand deposits, the amount payable on demand as of the consolidated balance sheet date is considered to be the fair value. The fair value of time deposits is calculated based on the discounted present value of future cash flows by certain time period. The discount rate used in the calculation is the interest rate that would be applied to newly accepted deposits. For short-term deposits, the carrying amount is considered to approximate their fair values because of their short maturities.

(10) Long-term debt

The fair values of bonds are determined with reference to quoted market prices. The fair values of other long-term debt are determined by discounting the total amounts of principal and interest by current interest rates assumed for the same debt.

(11) Derivative financial instruments

Information on the fair values of derivative financial instruments is included in Note 17.

#### (ii) Financial instruments whose fair values are deemed to be difficult to determine

The financial instruments below are not included in the fair value disclosure due to difficulties in the determination of fair values:

		Millions	s of Yen		ousands of S. Dollars
		2014		2013	 2014
Stock with no active market quotations Trust beneficiary rights	¥	1,243 9,082	¥	1,063 9,113	\$ 12,081 88,240

(iii) Maturity analysis for financial assets with contractual maturities

The table below presents the carrying amount of the Group's assets by maturity groupings based on the remaining period at the end of the reporting period to the contractual maturity date:

						Millio	ns of Y	en				
						2	2014

(\*) The cash flow of demand deposits is included in the "Up to 1 year" group.

# **17. DERIVATIVES**

The Group enters into forward exchange contracts and currency swap contracts to hedge foreign exchange risk on foreign currency-denominated debt. The Group also enters into interest rate swap contracts to limit the unfavorable impact from increases in interest rates on its floating-rate long-term debt. The interest rate swap contracts

effectively swap a floating-rate interest payment to a fixed-rate interest payment. The Group does not enter into or trade derivative financial instruments for speculative purposes.

Derivative financial instruments are subject to market risk and credit risk. Since the Group enters into derivative financial instruments only for hedging purposes, market risk in those hedging instruments is basically offset by opposite movements in the value of hedged items. The credit risk on those derivative financial instruments is limited as the counterparties are major financial institutions with high-credit ratings.

The basic policies for the use of derivative financial instruments are approved by the Board of Directors and transactions are executed and controlled by the Finance Department. Each derivative transaction is periodically reported to management each time evaluation and analysis are made.

Derivative financial instruments qualifying for hedge accounting as at March 31, 2014 and 2013, consisted of the following:

-			Millio	ons of Yen		
			2	2014		
	Contract					realized
	A	Amount	Fa	ir Value	Ga	ain/Loss
Currency swap contracts:

	A	mount	Fai	r Value	Ga	in/Loss	
Credit default swap contracts: Short position	\$	29,149	\$	(1,005)	\$	11,312	

Fair values of derivative financial instruments are based on forward market quotations and mark-to-market reports provided by financial institutions.

The contract or notional amounts of derivative contracts shown above do not represent the amounts exchanged by the parties and do not measure the Group's exposure to credit risk or market risk.

# **18. LOAN COMMITMENTS**

The Group provides cash advance and card loan services that supplement its credit card operations. The unexercised portion of loan commitments in these businesses was as follows:

		Millions	of Yen	Thousands of U.S. Dollars
		2014	2013	2014
Total loan limits	¥	6,762,126	¥ 5,855,998	\$ 65,702,741
Loan executions		391,219	292,533	3,801,200
Unexercised portion of loan commitments	¥	6,370,907	¥ 5,563,465	\$ 61,901,541

The above amounts include amounts related to securitized receivables. The execution of the loan commitments requires an assessment on the credit status of the borrower and the usage of the fund. Therefore, not all unexercised portions of loan commitments will necessarily be executed.

The Group operates banking business and has entered into overdraft facility and loan commitment contracts. These contracts commit the Group to lend to customers up to the prescribed limits upon receipt of a customer application as long as there is no violation of any conditions in the contracts. The amounts of unutilized commitments as at March 31, 2014 and 2013, were as follows:

					The	ousands of	
					U.	U.S. Dollars	
		2014		2013		2014	
Unutilized commitments	¥	11,483	¥	28,353	\$	111,569	
Of which: those expiring within one year		3,163		19,075		30,736	

Since many of these commitments expire without being drawn down, the unutilized amount does not necessarily affect future cash flows. Many of these contracts have conditions whereby the Group can refuse customer applications for loans or decrease the contract limits for certain reasons, such as changes in financial situation, protection of own credit, and other reasonable grounds. Furthermore, during the period that the contracts are effective, the Group performs periodic reviews of the customers' business results based on internal rules and takes necessary measures to reconsider contract terms to protect own credit.

# **19. COMPREHENSIVE INCOME**

Reclassification adjustments to profit or loss and tax effects of other comprehensive income for the years ended March 31, 2014 and 2013, were as follows:

### **20. BUSINESS COMBINATION**

#### **Business combination through acquisition**

The Company resolved at the meeting of its Board of Directors held on April 11, 2013 to acquire shares of Toshiba Finance Corporation (currently, AEON Product Finance Co., Ltd.) and as at the same date concluded the share assignment agreement with Toshiba Corporation and acquired the shares on May 16, 2013. (a) Overview of business combination

(i) Name and business of acquired company

Toshiba Finance Corporation

Name Business

- · Installment sales, credit guarantees and, hire purchases
- · Guarantee business and loan purchases
- · Collection and payment agency

# (ii) Major reason for business combination

The Company became a bank holding company with financial services subsidiaries on April 1, 2013. In addition to providing various secure, convenient and beneficial financial products and services to the customers, the Company aims to further expand its business operations, leveraging the strengths of each subsidiary to achieve synergies and develop new businesses.

Toshiba Finance Corporation was established in 1959. Since then, it expanded its operations, building its business on installment sales and credit guarantees in connection with sales of Toshiba home electronics and other products, using its operating capabilities, credit review knowhow, and nationwide sales network.

Making Toshiba Finance Corporation a consolidated subsidiary will bring its sales capabilities and specialized employees to the Company. In addition, the Company will nurture the newly acquired company as a key component of earnings alongside credit cards, banking, insurance, and e-money businesses, by expanding installment sales and affiliated loans with a focus on home renovation, solar energy systems, and agricultural equipment sales by leveraging AEON Group's sales network, AEON Credit Service's low-cost administration and processing capabilities, and AEON Bank's fund-raising (through bank deposits) capabilities.

(iii) Date of business combination

May 16, 2013

(iv) Legal form of business combination

Acquisition of shares

(v) Name of company after business combination

No change

(vi) Percentage of voting rights acquired

100%

(vii) Major grounds for determination of acquiring company

The fact that the Company acquired the shares for a cash consideration.

(b) Period for which financial results of acquired company were consolidated

The financial results from July 1, 2013 through March 31, 2014 were consolidated as the acquisition date was deemed to be June 30, 2013.

(c) Acquisition cost of acquired company and the breakdown

Millie	ons of Yen	Thousands of U.S. Dollars		
¥	5,753	\$	55,898	
	89		867	
¥	5,842	\$	56,765	
	Millio ¥ ¥	89	Millions of Yen         U.S           ¥         5,753         \$           89         89         \$	

(\*) Reflects price adjustments specified in the share assignment agreement.

(d) Amount, cause, amortization method, and amortization period of goodwill incurred

(i) Amount of goodwill incurred

¥1,782 million (\$17,313 thousand)

(ii) Cause of goodwill incurred

Excess earnings power is expected to be produced by the development of the business and the effect of synergies in the future.

(iii) Amortization method and amortization period of goodwill incurred

The goodwill is amortized using the straight-line method over 10 years.

(e) Amounts of assets acquired and liabilities assumed at the date of business combination and the breakdown

	Mill	ions of Yen	Thousands of U.S. Dollars		
Total assets	¥	317,420	\$	3,084,143	
Of which: customers' liabilities for acceptances and guarantees		235,846		2,291,549	
Of which: installment sales receivables		73,856		717,602	
Total liabilities		313,360		3,044,691	
Of which: acceptances and guarantees		235,846		2,291,549	
Of which: borrowed money		56,087		544,957	

(f) Estimated amount of effect on the Company's consolidated statement of income if the business combination were completed at the beginning of the current fiscal year and method of determining the effect

	Millio	Millions of Yen		
Total income	¥	1,976	\$	19,195
$(1, 4, \dots, 1, 1, \dots, 41, \dots, 60, \dots, 41)$				

(Method of determining the effect)

The effect was determined by calculating the difference between total income calculated under the assumption that the business combination was completed at the beginning of the current fiscal year and actual total income reported on the acquiring company's consolidated statement of income.

However, this note is not audited.

# **21. NET INCOME PER SHARE**

Basic and diluted EPS for the years ended March 31, 2014 and 2013, were as follows:

	Mill	ions of Yen	Thousands of Shares		Yen	U.S	. Dollar
	Ne	et Income	Weighted- Average Shares		EI	PS	
For the year ended March 31, 2014: Basic EPS

Transactions of the Company's consolidated subsidiaries with related parties for the year ended March 31, 2014, were as follows:

	Milli	Thousands of U.S. Dollars		
AEON Retail Co., Ltd. (subsidiary of the parent company) Loans and bills discounted		2014	2014	
	¥	40,600	\$ 394,481	
Other assets		34	335	
Lending of loans		29,246	284,164	
Interest income		268	2,602	

There were no transactions of the Company's consolidated subsidiaries with related parties for the year ended March 31, 2013.

The terms of the above transactions were set on an arm's-length basis and in the normal course of business. The transaction stated as "cash deposits" above are deposits of temporary excess operating cash in hand. The transaction amounts of "lending of loans" represent the average outstanding balance for each fiscal year. There was no outstanding balance as at March 31, 2013. The interest on deposits is based on a Japanese yen short-term market interest rate.

Transactions with related parties for the years ended March 31, 2014 and 2013 were as follows:

The transaction stated as "housing loans" above are standard products provided by AEON Bank, Ltd., a consolidated subsidiary of the Company. Interest rate and conditions of repayment are similar to those given to third-party customers.

#### 23. SEGMENT INFORMATION

Reportable segments of the Group are components of the Group for which separate financial information is available and such information is evaluated regularly by the chief operating decision maker in deciding how to allocate resources and in assessing performance. Generally, segment information is required to be reported on the same basis as is used internally for evaluating segment performance and deciding how to allocate resources to segments.

#### (a) Description of reportable segments

The Company's reportable segments are those for which separate financial information is available and regular evaluation by the Board of Directors is being performed in order to decide how resources are allocated among the Group.

The Group conducts business activities composed of the "Credit" business dealing in credit card purchase contracts, loan contracts, and hire purchase contracts in the domestic markets, "Fee Business" providing services including e-money in the domestic market, "Banking" business dealing in banking services in the domestic markets, and "Overseas" business dealing in credit extensions and lending in foreign markets. The Group formulates comprehensive strategies for each business. Accordingly, the Group has four reportable segments, "Credit," "Fee Business," "Banking," and "Overseas."

"Credit" consists of financial services such as credit card contracts and loan contracts with domestic customers. "Fee Business" consists of the e-money business, the bank agency business, and the ATM business in the domestic market.

"Banking" consists of banking businesses, including lending and management of deposits from customers.

"Overseas" consists of financial services, including credit card contracts and loan contracts with customers in areas of Asia such as in Hong Kong, Thailand, and Malaysia.

# (b) Methods of measurement for the amounts of ordinary income, profit (loss), assets, and other items for each reportable segment

The method of accounting by reportable segment is consistent with the method of accounting used for the preparation of the consolidated financial statements. Segment profit is adjusted to reconcile to income before taxes and minority interests less certain extraordinary items in the accompanying consolidated statements of income. The intersegment income or transfers are based on the current market prices.

(\*1) For the segment revenue, the Group uses ordinary income instead of sales that are used by normal commercial companies. Ordinary income represents total income less certain extraordinary income included in "Other income" in the consolidated statements of income.

(\*2) ¥(6,463) million (\$(62,800) thousand) of reconciliations to segment profit for the year ended March 31, 2014 and ¥(4,118) million of reconciliations to segment profit for the year ended March 31, 2013 represent the corporate expenses unallocated to any reportable segment. The corporate expenses are mainly comprised of general and administrative expenses unattributable to any reportable segment. In addition, ¥(173,797) million (\$(1,688,656) thousand) of reconciliations to segment assets for the year ended March 31, 2014 and ¥25,919 million of reconciliations to segment assets for the year ended March 31, 2013 represent the corporate assets unallocated to any reportable segment assets for the year ended March 31, 2013 represent the corporate assets unallocated to any reportable segment assets for the year ended March 31, 2014 and ¥25,919 million of reconciliations to segment transactions.

(\*3) Segment profit is adjusted to reconcile to income before taxes and minority interests less certain extraordinary items in the accompanying consolidated statements of income.

#### **Changes in reportable segments**

The Group has prepared the consolidated financial statements for the fiscal year ended March 31, 2014 in accordance with the Ordinance for the Enforcement of the Banking Act (Ordinance of the Ministry of Finance No. 10 of 1982) which prescribes classifications of assets and liabilities and revenues and expenses. Accordingly, the basis of measurement for the reportable segment profit has changed from operating income, which was used in the past, to income before taxes and minority interests.

However, the segment information for the previous fiscal year based on income before taxes and minority interests is not disclosed. This is because it is impracticable to determine prior year information of the Company and its consolidated subsidiaries required to prepare segment information based on income before taxes and minority interests.

# INDEPENDENT AUDITOR'S REPORT

To the Board of Directors of AEON Financial Service Co., Ltd.:

We have audited the accompanying consolidated balance sheet of AEON Financial Service Co., Ltd. and its subsidiaries as of March 31, 2014, and the related consolidated statements of income, comprehensive income, changes in equity, and cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information, all expressed in Japanese yen.

# Management's Responsibility for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with accounting principles generally accepted in Japan, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

### Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in Japan. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements of the consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

# Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of AEON Financial Service Co., Ltd. and its subsidiaries as of March 31, 2014, and the consolidated results of their operations and their cash flows for the year then ended in accordance with accounting principles generally accepted in Japan.

# **Convenience** Translation

Our audit also comprehended the translation of Japanese yen amounts into U.S. dollar amounts and, in our opinion, such translation has been made in accordance with the basis stated in Note 1 to the consolidated financial statements. Such U.S. dollar amounts are presented solely for the convenience of readers outside Japan.
