

# Providing Services that Enrich Lives while Making

## The AEON Group's Unified Management

We will unify our management principles, brands, and strategies with those of the AEON Group, which, as a corporate group that continues steady innovation, aims to be the most loved "super regional retailer" in Asia. Upon doing so, we will ensure that community-rooted management is carried out by the Group as a whole and provide services that support customers' everyday lives.

## Sharing the Group's Management Resources

While working to centralize community and customer information within the AEON Group, we are working to provide improved convenience for various companies' services, and create new services that make use of diverse values through dynamic personnel utilization.
