

**REPORT ON REVIEW OF INTERIM FINANCIAL INFORMATION
BY THE INDEPENDENT CERTIFIED PUBLIC ACCOUNTANTS**

TO THE BOARD OF DIRECTORS

AEON THANA SINSAP (THAILAND) PUBLIC COMPANY LIMITED

We have reviewed the consolidated statement of financial position of AEON Thana Sinsap (Thailand) Public Company Limited and its subsidiaries and the separate statement of financial position of AEON Thana Sinsap (Thailand) Public Company Limited as at November 30, 2022, and the related consolidated and separate statements of profit or loss and profit or loss and other comprehensive income for the three-month and nine-month periods ended November 30, 2022, the related consolidated and separate statements of changes in shareholders' equity and cash flows for the nine-month period ended November 30, 2022, and the condensed notes to the financial statements. The Company's management is responsible for the preparation and presentation of this interim financial information in accordance with Thai Accounting Standard No. 34 "Interim Financial Reporting". Our responsibility is to express a conclusion on this interim financial information based on our review.

Scope of Review

We conducted our review in accordance with Thai Standard on Review Engagements 2410 "Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Thai Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the aforementioned interim financial information is not prepared, in all material respects, in accordance with Thai Accounting Standard No. 34 “Interim Financial Reporting”.

2.7 Thai Financial Reporting Standards affecting the presentation and disclosure in the current period financial statements

During the period, the Group and the Company have adopted the revised financial reporting standards issued by the Federation of Accounting Professions which are effective for fiscal years beginning on or after January 1, 2022. These financial reporting standards were aimed at alignment with the corresponding International Financial Reporting Standards, with most of the changes directed towards revision of wording and terminology and accounting requirements for interest rate reform - Phase 2. The adoption of these financial reporting standards does not have any significant impact on the Group's and the Company's interim financial statements.

Accounting Treatment Guidance on "Guidelines for supporting debtors affected by COVID-19"

The objective of this accounting treatment guidance is to grant the temporary relief measures for entities helping their debtors affected from COVID-19 with the supporting period during January 1, 2022 to December 31, 2023 or until there are any changes from the Bank of Thailand, which requires the compliance for such changes. The entities who support their debtors and elect to apply the temporary relief measures according to this accounting treatment guidance should disclose information as specified in this accounting treatment guidance.

For the three-month and nine-month periods ended November 30, 2022, the Group and the Company have adhered to such Accounting Treatment Guidance regarding staging of receivables. For receivables that are credit impaired but still have the potential for repayment, the Group and the Company will classify the receivables as low credit risk (Stage 1) if the debtor has been repaying for 3 consecutive months or 3 payment periods, whichever is longer.

In the case where debt restructuring results in the original effective interest rate not reflecting the projected cash flows from such debts, the Group and the Company will adhere to such Accounting Treatment Guidance by using the new effective interest rate to calculate the present value of the restructured debts under the guidelines in the relief measurement to help debtors following the Bank of Thailand's circular letter.

2.8 Thai Financial Reporting Standards announced in the Royal Gazette but not yet effective

On August 19, 2022, Thai Financial Reporting Standard No.17 "Insurance Contracts" has been announced in the Royal Gazette and will be effective for the financial statements for the period beginning on or after January 1, 2025 onwards.

On September 26, 2022, the revised Thai Accounting Standards and Thai Financial Reporting Standards have been announced in the Royal Gazette and will be effective for the financial statements for the period beginning on or after January 1, 2023 onwards. Standards relevant to the Group and the Company are as follows:

Thai Accounting Standard No.37 “Provisions, Contingent Liabilities and Contingent Assets”

The amendments specify that the “cost of fulfilling a contract” comprises the “costs that relate directly to the contract”. Costs that relate directly to a contract consist of both the incremental costs of fulfilling that contract (examples would be direct labor or materials) and an allocation of other costs that relate directly to fulfilling contracts (an example would be the allocation of the depreciation charge for an item of property, plant and equipment used in fulfilling the contract). The amendments apply to contracts for which the entity has not yet fulfilled all its obligations at the beginning of the annual reporting period in which the entity first applies the amendments. Comparatives are not restated. Instead, the entity shall recognize the cumulative effect of initially applying the amendments as an adjustment to the opening balance of retained earnings or other component of equity, as appropriate.

Thai Financial Reporting Standard No.9 “Financial Instruments”

The amendment clarifies that in applying the “10 per cent” test to assess whether to derecognize a financial liability, an entity includes only fees paid or received between the entity (the borrower) and the lender, including fees paid or received by either the entity or the lender on the other’s behalf. The amendment is applied prospectively to modifications and exchanges that occur on or after the date the entity first applies the amendment.

The Group’s and the Company’s management will adopt such TFRSs in the preparation of the Group’s and the Company’s financial statements when it becomes effective. The Group’s and the Company’s management is in the process to assess the impact of these TFRSs on the financial statements of the Group and the Company in the period of initial application.

3. SIGNIFICANT ACCOUNTING POLICIES

The interim financial statements have been prepared based on the basis, accounting policies and method of computation consistent with those used in the financial statements for the year ended February 28, 2022, except for the following accounting policies for new transactions (see Note 7 and Note 20).

3.1 Loans from purchase of accounts receivable and accrued interest

The loans from purchase of accounts receivable represent non-performing receivables which a subsidiary has purchased from financial institutions and credit service companies by bidding for debts management and collection. Under the purchase contracts of non - performing receivables, the subsidiary takes all the risks in the collection without recourse. The loans from purchase of accounts receivable are recognized as purchased or originated credit-impaired financial assets. The subsidiary initially recognizes purchased or originated credit-impaired financial assets at cost, which comprise purchased amount (fair value as at transaction date equals or approximates to purchased price) plus direct expense of loans from purchase of accounts receivable, and presents at amortized cost plus accrued interest income, net of allowance for expected credit losses.

3.2 Allowance for expected credit losses of loans from purchase of accounts receivable

The loans from purchase of accounts receivable are purchased or originated credit-impaired financial assets. The subsidiary recognizes allowance for expected credit losses from loans from purchase of accounts receivable as the cumulative changes in lifetime expected credit losses since initial recognition.

The subsidiary estimates the amount of expected credit losses of loans from purchase of accounts receivable by calculating the difference between the carrying amount of loans from purchase of accounts receivable and the present value of estimated future cash flow, and by discounting the unbiased forecast cash flows based on reasonable and supportable information that is relevant and available without undue cost or effort.

The subsidiary uses judgment in estimating the amount and period of expected net cash inflows in calculating allowance for expected credit losses and credit-adjusted effective interest rate since initial recognition of loans from purchase of accounts receivable for recognition of interest income. In estimating cash flows, the subsidiary considers loss experience and adjusts on the basis of current observable data. In addition, the subsidiary uses reasonable and supportive forecasts of future economic conditions that are proven to be statistically correlated, and uses appropriate judgment to estimate the amount of expected credit losses. The subsidiary uses judgement in assessing financial situation of debtor, net collateral value and future information and uses forward-looking information model to calculate allowance for expected credit losses.

The subsidiary recognizes the amount of the change in lifetime expected credit losses of the financial assets as gain or loss from expected credit losses in profit or loss. The subsidiary recognizes favorable changes in lifetime expected credit losses as a reversal of expected credit losses, even if the lifetime expected credit losses are less than the amount of expected credit losses that were included in the estimated cash flows on initial recognition.

3.3 Share-based payment

Equity-settled share-based payments to management and employees are measured at the fair value of the equity instruments at the grant date, and is recognized as employee expense in the statement of profit or loss along with the recognition of the shareholders' equity throughout the period that employee is able to access the rights without restriction. The expense recognized is to be adjusted to reflect the value of shares under the term of service that is not the term of equity market.

28. SALE OF WRITTEN-OFF RECEIVABLES

- 28.1 On June 28, 2018, the Company sold written-off receivables under loan agreements and credit card agreements to ACS Servicing (Thailand) Co., Ltd. (the "buyer"), a subsidiary, with the purchase price of Baht 31.52 million. On the same date, the Company entered into the "Asset Sale and Purchase Agreement" with the buyer. The agreement sets out the conditions and terms in respect of the sales, assignment and conveyance of the Company's rights, title, claim, obligation, liability and interest in the written-off receivables under loan agreements and credit card agreements. On June 28, 2018, which is the closing date as specified in the agreement, the Company received the payment in full from the buyer. However, the Group has retained substantially all of the risks and rewards of the assets transferred to the buyer which is the subsidiary. Consequently, the Company recorded cash received from the buyer as deferred revenue which will be recognized as revenue when the buyer can collect from debtors.
